NOBODY HOME!
MADDEN SAYS
OF AIR CHIEFS

Flays Army and Navy
at Aviation Inquiry.

SERIES FOR TEAM.
Senators' left fielder,
Madden's second home run.

MARTIN E.
MADDEN
(P. A. Photo.)

Mr. Madden, tall, gray-haired, ruddy-faced, eyes sparkling with humor, became exceedingly grave when he pronounced the work of the aviation branches of the war and navy departments virtually a total failure up to date, and advocated a fundamental reorganization of each body of flyers and the divorce of all technical production work from the departments.

They Are Remiss Elsewhere.

"The failure of the army and navy to spend their money intelligently in the air services is not unique," Mr. Madden remarked. "Similar extravagant get-nowhere programs are being carried on in tank development, artillery development, chemical warfare, and ammunition development."

At one point the old statesman paused and, sweeping the committee with a glittering eye, paid his respects to what he called "aerial joy riding."

"The joy riding, crudely around the world, jumps across the Pacific, attempts to discover the north pole, etc., serve no purpose and have no place in this training. The army doesn't send its motor cars off on long pleasure trips across the country. The navy doesn't maneuver its fleets except in mimic warfare in order to keep the personnel trained as to their functions in real warfare. The air services should confine their flying to flying definitely established as a training for wartime operations."

Congress Is Not Stingy.

What apparently had got the goat of the treasury watchdog was the assertion that congress has starved the air services. Mr. Madden vehemently denied the charge, citing to begin with the statement of Gen. Patrick, chief of the army air service, that the development of the air force since the war has been almost wholly experimental. He exploded over an admission by Patrick that the department had purchased 262 planes deficient in vision.

Just Ambles Meandering.

"It credit is to be given to the testimony of many of the witnesses that have preceded me this period of development and experimenting has been productive of very little, if any, advance toward a plan which might be accepted by congress," he went on. "They have been told by men who could know that, with few exceptions, we steps forward have been made. I cannot help but conclude that the technical development of this new field may not be safely left to the armed forces if we are to take our place among the countries of the world in

NEWS SUMMARY

FOREIGN.

United States troops from canal zone occupied the capital of Panama, dispersing thousands of rioters whose depredations had invaded Panama, president to appeal to United States.

Locarno European security conference starts rewriting treaty of Versailles and drafting formula to admit Germany into league of nations.

Communist riot in Paris and suburbs in protest against war in Morocco. Battles with military, casualties.

English police research expert found stricken with mysterious new gas of his secret manufacture and reported dying. Doctors mystified.

September trade reports show inexorable increase of imports and the dangerous economic position of England.

Italian government arrests nine Fascist ringleaders in the massacre of Florence and the reign of terror in Rome.

Japan asks the United States to abandon its wireless claims in China and to let China control all its radio.

Caillaux points out to France the financial danger of not accepting the plan of the Americans.

DOMESTIC.

Bishop Brown deposed from episcopacy in ceremony made doubly impressive by paucity of absolute silence, the deposed official not present to hear sentence pronounced.

Lieut. Cyrus Bettis, army, wins Pulitzer trophy at 248.99 miles on Long Island.

Senator Lenroot is denounced by Wisconsin Anti-Saloon league official as "no longer a friend of law enforcement and prohibition."

South Dakota attorney general refuses to investigate Senator Norbeck and McMaster at request of United States grand jury.

Militia and posse hunt escaped Illinois convict who killed Dubuque, Iowa, in new dash for liberty.

Big liners, delayed by storm, reach New York.

Rock River conference of M. E. church closes at Elgin after Bishop Wilson announces assignment of pastorate.

Strange underworld transactions will restore \$683,000 stolen gems to Woolworth heiress.

Maine governor and other men of prominence join in greeting to Explorer MacMillan and party in luncheon at Portland.

WASHINGTON.

Orgy of extravagance and incompetence attributed to army and navy air chiefs by Martin E. Madden.

Secretary of War Weeks resigns; announcement will be made today.

Shenandoah's midwest flight part of its training schedule. Admiral Eberle testifies.

LOCAL.

Girl in Durkin killing case maintains "Marty" is innocent; tells her life story.

Dr. Clegg's attorneys charge lawyers wrote brief for Mrs. Leland; declare it publicly move.

Chief of Police Plans to close Chicago theater today and arrest its own acting secretary of war, will be given the war portfolio.

Search cities, towns, and highways for Martin Durkin slayer of United States agent here Sunday.

Chicago and Northwestern wins 20 per cent boost in suburban fares within Illinois; limited to 2 cent rate.

Police blame gangster vengeance for Latelak murder.

SPORTING.

Sailors lack a tried pitcher to face Pirates today.

Paul Berlenbach scores technical K. O. over King Solomon in ninth round of New York bout.

Chicago Riding club sends out 3,000 invitations to national horse show, Dec. 8 to 12.

Lynette wins in straight heats at Atlanta, Ga., Grand Circuit meet.

Chicago-Northwestern game tops at straight line of grid games Saturday.

EDITORIALS.

National Politics: Discovering America; Why They Call Us Shylock; To Get Murder Juris; Vilna.

MARKETS.

Railroads and bus lines each can make case on unfair competition. Scrutator says.

Grains weaken in northwest with markets closed elsewhere.

Decline in hogs checked by moderate supply; cattle generally lower; sheep break 25¢ on receipts of 22,000.

It can but conclude that millions of dollars appropriated by congress during the past few years for this development program, has been squandered in a purposeless, meaningless, experimental orgy. Surely it is too much to expect that the movement should have purchased more than is in evidence in tangible

Victory.

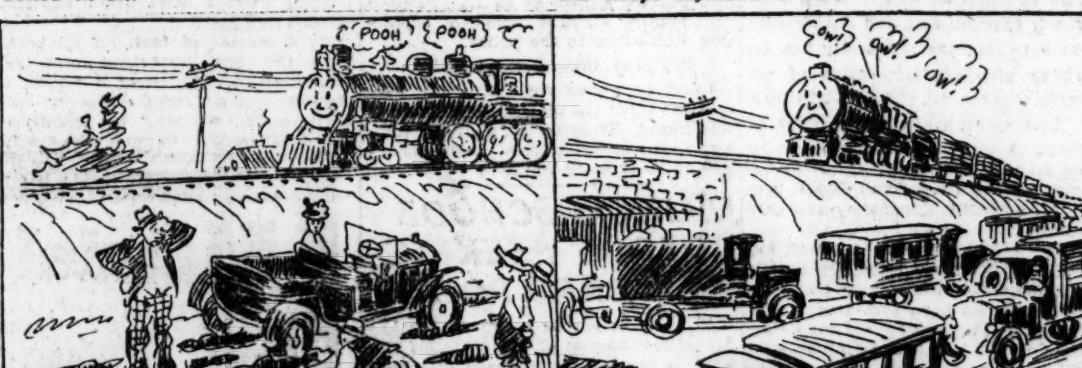

"Why the demands of some of these people who come before us bankrupt the government. That is more particularly to the present period. These fellows are all up in their duties and they

paid on page 4, column 13.

THE CHANGING WORLD

In the old days the church heretics were at least boiled in oil. Today the heretic is merely stripped of his rank but keeps layman's status.

In the old days the railroads used to "pooh pooh" the competition of the auto. Today the railroads are anxiously observing the competition of 60,000 motor-buses.

When France needed the money she was glad to borrow at 5 per cent.

THE WEATHER.

TUESDAY, OCTOBER 13, 1925.

Chicago and Vicinity—Mostly cloudy with some rain; rather cool; moderate to fresh winds, mostly northwest to northeast.

Illinois and Indiana—Mostly cloudy Tuesday; some rain; mostly cool; change in temperature.

Lower Michigan—Partly cloudy in north; possibly some rain in south portion; change in temperature.

North Dakota—Mostly fair Tuesday; possibly rain or snow in southwest portion; not much change in temperature.

South Dakota—Mostly cloudy Tuesday; probably rain in west and south portions; not much change in temperature.

Missouri—Mostly cloudy Tuesday; probably some rain; slightly colder tonight.

Iowa—Mostly cloudy Tuesday; probably some rain; mostly cool; change in temperature.

Minnesota—Mostly fair Tuesday; except possibly in south portion; not much change in temperature.

North Dakota—Mostly fair Tuesday; except possibly rain or snow in southwest portion; not much change in temperature.

Wyoming—Unsettled Tuesday; rain probable; snow in mountains; not much change in temperature.

Upper Lakes—Moderate to fresh winds, mostly northwest and north; generally fair.

Tuesday on Superior; mostly cloudy on Michigan and Huron, with possibly rain in south portion.

Lower Lakes—Winds mostly moderate to fresh west and northwest; mostly cloudy Tuesday; possibly some rain.

GENERAL FORECAST.

The weather is unsettled Monday and unsettled Tuesday in the southern and central portions of the Chicago forecast district, with some precipitation over most of this area. In the extreme north the weather will be generally fair with moderate change in temperature.

HOLD WARRANT NEEDED TO RAID HOMES FOR DOPE

Washington, D. C., Oct. 12.—(UPI)

Federal agents operating under the Harrison Narcotic act, have no right to search residences without a search warrant, except where arrests are actually made, the Supreme court declared today in the appeal of Thomas Agnello an Adelphi arrested in Brooklyn, N. Y.

The case, considered a precedent, arose from the arrest of Agnello and four associates after they had completed a mile of heroin, and a barbershop in Brooklyn, where they had been meeting.

"We left Sebastian on the Indian river for a trip out to the ocean," said Mr. Barnes. "The wind was high and the sea rough. We had only gotten shortly past Sebastian when Capt. Arnold thought best to turn back. As we turned back we struck the yacht and she rolled over, upside down. We were all thrown under the yacht and only the strong waves brought us up."

NOBODY HOME! MADDEN SAYS OF AIR CHIEFS

Army and Navy Methods Denounced at Quiz.

(Continued from first page.)

little concern themselves with the whole sum available to go around.

"The army and navy, my experience has been, at the least concerned and at the worst, the money is coming from. They always see a war on the horizon and want to be ready at the drop of a hat to go after the other fellow."

"I don't condemn them for that, but I do condemn them when congress has appropriated all that the country can afford, for trying to blame congress when they find themselves in difficulty because they have not wisely applied the money placed at their disposal. What would these blame-shifters have had us do?"

Here the appropriations chairman began to exude figures and statistics on what congress has done for aeronautics.

Why Stock Up on Airplanes?

"I think it will be perfectly patent to any one who will make a study of the question that had materially larger appropriations been made we would now find ourselves stocked up with a lot of antiquated aircraft of many different types, all now needing replace-

ment," Mr. Madden said. "Our experimental policy has developed what? Almost if not quite nothing, if credit is to be given to most of the testimony here. If we had provided money for an army plane, based on this development failure which would we now? More money would have been spent and we still would be confronted by failure."

The idea that only West Point and Annapolis graduates can fly planes caused the watch dog to bark lustily. No Special Talent Needed.

"Any lad possessing the requisite physical qualifications and a certain amount of daring, perhaps, in his make-up can be readily trained as a flyer," Mr. Madden said. "They may not be navigators and they may require an officer's training to be instructed with observation duties, but just for flying the planes and attending to their mechanisms and using their armament, we need not look beyond our enlisted men. Enlisted men are flying planes today."

"The air mail service is operating with military and naval academy graduates. How well? The record speaks for itself."

"Why do we need an air corps then? Why need we ponder over the commissioned personnel question? We can get all of our flyers, both for the army and navy from the ranks. We could continue to employ officers to command stations and air depots and the like, and do the flying, navigating, where necessary, but they need not be air officers. They would be detailed to such duty as they are to various army shore billets and in the navy to submarines, destroyers, and other craft, and to shore posts."

Other Plans He Advocates.

"I would not advocate that enlisted men be required to serve in the lower grades. If a man in the service qualified I think we should provide that he might be immediately rated a chief petty officer or equivalent army rating and after a brief period of service as an enlisted officer and in the case of a man enlisted for flying duty, that he should be enlisted in a petty officer rating and similarly treated if he should qualify, but discharged otherwise."

"If such a policy were worked out and established the whole personnel question would be settled for all time. We would have some from the corps engineers and the like, the promotion question and the problem of what to do with flying officers, still young men but considered too old for flying duty, and have harmony."

"The fleet reserve would take care of the naval enlisted men and we could make similar provision for the army after the flying duty was over, then could continue on ground duty until they had had sufficient service for retirement. Another important consideration would be that more than likely a goodly number of enlisted flyers would leave the service at the end of their enlistments and would go out and engage in commercial aviation and beat it available to the military forces in time of emergency."

How to Get Money's Worth.

If these departments would follow his advice, Mr. Madden intimated, they would get their money's worth. The appropriation is now \$35,000,000 for both services. He sketched the way he would spend \$37,500,000 and get results for the departments. This is his estimate:

"Fifteen hundred new airplanes of various designs at \$20,000 each could be purchased annually, amounting in the aggregate to \$30,000,000."

"Ten ground service men for each airplane, which is more than ample to properly care for the airplanes, at \$1-

500 each per enlisted man, which I think would be a fair average to cover his army pay, his clothing, subsistence, etc., would cost \$22,500,000."

"For commanding officers, or one officer for each ten enlisted men, or one officer for each of the 1,500 airplanes, would cost approximately \$7,500,000."

To Cover Big Distances.

"If these airplanes are each flown 300 hours during a year, that would be an approximate total mileage flown of 45,000,000. This is many times the mileage these past years and many times the mileage which will probably be the new normal. A mile of the cost of maintaining the airplanes and their power plants for this much flying could not exceed 50 cents a mile, the labor having been provided for in the enlisted man estimate above. This is a total of \$22,500,000."

"Five million dollars would be a fair estimate for the maintenance of all the flying fields necessary as bases of operation for these 1,500 airplanes."

"We urged that commercial aviation be developed in order to build up a flying reserve, and municipal air ports and landing equipment."

NAB CHICAGOAN WITH \$25,000 AND ANOTHER'S WIFE

TOKIO-LONDON
FLYER FALLS IN
BRITAIN; UNHURT

LONDON, Oct. 12.—(AP)—One of the Japanese aviators attempting a Tokio-to-London flight crashed today near Farnborough, thirty miles southwest of London, while on the last lap of the long journey, that from Le Bourget, near Paris, to London. The machine which crashed was that of Katsuhiko Hoffman, 23 years old, wife of Leonard H. Hoffman, wealthy furrier living at 640 Waveland avenue. They were trailed to St. Louis by the husband and detectives employed by him. Hoffman stated he would prefer charges against the Lothario, who is said to be 50 years old.

Wife Who Slew Husband
Insane, 2 Doctors Testify

Laporte, Ind., Oct. 12.—[Special.]—Mrs. Anna Skiba was insane when she beat her husband to death with a crowbar on his 49th birthday last June, Drs. J. H. Foster and L. E. Stephen, of Laporte, said.

The woman in the case is Mrs. Margarette Hoffman, 23 years old, wife of Leonard H. Hoffman, wealthy furrier

living at 640 Waveland avenue. They were trailed to St. Louis by the husband and detectives employed by him.

Hoffman stated he would prefer charges against the Lothario, who is said to be 50 years old.

Five million dollars would be a fair estimate for the maintenance of all the flying fields necessary as bases of operation for these 1,500 airplanes."

"We urged that commercial aviation be developed in order to build up a flying reserve, and municipal air ports and landing equipment."

Two GANG EX-OFFICIALS PARZLED.

After serving five and one-half months of their one year sentences, Lewis A. Barnes and Clyde Hunter, former Gary officials convicted of conspiracy to violate the prohibitory law, were released yesterday from the federal penitentiary at Atlanta. E. O. Jackson, Y. M. Kimber and B. M. Lucas, convicted with them, are still in the prison.

The cause will go to the jury tomorrow.

MENANDOAH TRAINING FLIGHT EERLE ASSESS

West Trip Dictate
Necessity, He Say

Shenandoah, D. C., Oct. 12.—One of the airship Shenandoah's crew of the venture of the first transatlantic flight, Alexander G. Macmillan, of meteorology at Harvard University and director of the Harvard Observatory, declared today before a court inquiring into the

think they came very near through the danger line," he said, adding that he is one of the officers of the craft who are courageous and competent that could have been de-

stinating his statement under conditions as they existed. Prof. Macmillan said he is the element of danger was to be to those on the craft. He came with Capt. Anton H. H. Eerle, German airship pilot, who was at Lakehurst, N. J., that day. Eerle shrieked out loud before the airship was wrecked.

Reasons for the Flight. General E. W. Eerle, chief of the Shenandoah, and Capt. G. S. Lippert, of ships' movements in Boston, testified concerning the midwestern flight. Eerle declared that it was his opinion that the airship should be trained in inland flying before the possible necessity of having to land the airship from the Atlantic coast in an emergency. Lincoln disclosed that on the flight was to test out the mooring mast which had been erected at Dearborn for commercial purposes. Wanted to build a similar field.

Flight of Conference. Commander Zachary Shenandoah, captain of the Shenandoah, at first to making a transatlantic flight in July. He said that after a conference with the whole situation was discussed, he agreed to make the joint assurance that he would defer discretion in handling

flight, he declared, was however, so the Shenandoah completed its course with the Tejas, one purpose of which was to show the capabilities of as a fleet scout.

INCE OF WALK ARS HOME; T AKE UP BRITAI

(Chicago Tribune Press Service.)

LONDON, Oct. 12.—With the British bearing the prince home from a world tour out at sea, England has made plans to give the royal a big welcome.

Plans are being made for two parades on Friday and vast crowds are expected to line the streets when the prince, clad in a naval uniform, is in an open carriage with King and Queen Mary.

Understand that the prince will be at a guild hall luncheon at the residence of the lord mayor of London, followed by the annual "wake up England" speech that of his father's two sons back when he returned from

the war.

Frederick in Singer's

Pen Letter Affair

Mo., Oct. 12.—(AP)—A char

acter, sending a poison pen letter to S. Marks, New York milliner, recently against Mrs. Marks, wife of a Joplin, Mo., owner, was dismissed today from the government. Mrs. Marks is a sister of Mrs. Lydia Lillian, singer, who faces a charge with the alleged sending of the letter to Marks. Mrs. Marks authorities the letter was written by Dornblazer and she did not know what it contained when it was sent for her.

Of Interest Only to Municipal Bond Holders

We have prepared some large, leather bound municipal bond registers. They contain a map of the United States upon which to spot each issue you own, thus enabling you to visualize your geographical diversification. They also contain together with the usual entry columns, space for listing such information as legal opinion, amortization, optional dates, population, etc., for each security.

The preparation of these registers is based upon years of study as to just what information the municipal investor wants permanently recorded concerning his holdings. It gives him the immediate and concise picture of his situation which he should have. One will be sent upon request without obligation. Of course, it is useful only to the holders of tax free bonds.

SHENANDOAH ON
MUNING FLIGHT,
SERLE ASSERTS
West Trip Dictated by
Necessity, He Says.

Washington, D. C., Oct. 12.—(AP)—One of the airmen of the venture of her mid-winter flight, Alexander G. McAdie, a graduate of meteorology at Harvard University and director of the Bluehill Observatory, declared today before the Senate investigating committee that they came very near getting through the danger line. Prof. McAdie said, adding that he knew the officers of the craft; that he was courageous and competent and that that could have been done in any circumstances.

Repeating his statement on the conditions as they existed at the time of the flight, Prof. McAdie said he did not know the element of danger was due to those on the craft, taking issue with Capt. Anton Heinrich, a German airship pilot, who tested at Lakehurst, N. J., that danger was shrieked out loud before the ship was wrecked.

Reasons for the Flight.
Capt. E. E. Sherrill, chief of naval aviators, and Capt. G. S. Lincoln, chief of naval movements in naval aviators, testified concerning the flight for the midwestern flight. Adm. Sherrill declared that it was necessary for the Shenandoah's personnel to train in inland flying because of the possible necessity of having to leave the ship from the Atlantic or Pacific coast in an emergency.

Adm. Lincoln disclosed that the purpose of the flight was to test out the moving mast which Henry Ford had erected at Dearborn in interest of lighter-than-air development for commercial purposes.

The wanted to build a similar mast at Field.

Tells of Conference.
Commander Zachary Lansdowne, captain of the Shenandoah, was at first to making the western flight in July, Admiral said that after a conference, the whole situation was considered and agreed to make the journey on assurance that he would have sole discretion in handling the

flight, he declared, was posterior, so the Shenandoah complete exercises with the batteau Tejas, one purpose of which is to show the capabilities of the as a fleet scout.

PRINCE OF WALES
ARRIVES HOME; TO
WAKE UP BRITAIN'

(Chicago Tribune Press Service.)

London, Oct. 12.—With the battle-rehearsal, the prince of Wales from a world tour only now out at sea, England has been making plans to give the "royal welcome" a big welcome.

He will be the prince for twenty minutes on Friday and vast crowds expect to line the streets when he is in a naval uniform, will be in an open carriage with King George V.

It is understood that the prince will soon at a guild hall luncheon

hosted by the lord mayor of London.

It is predicted that he will make "wake up England" speech.

That of his father's twenty

years when he returned from tour.

Freedom in Singer's
Pen Letter Affair

Mo., Oct. 12.—(AP)—A charge

of mailing a poison pen letter to

Mrs. Marks, New York millionairess recently against Mrs. Mary Anna, wife of a Joplin, Mo., news owner, was dismissed today at noon by the governor of Missouri.

Mrs. Anna is a sister of Mrs. Lydia Lockett

Wales, singer, who faces a charge

of mailing the alleged sending

letter to Marks. Mrs. Marks

authorizes the letter was written

to Doroblaizer and she did not

know what it contained when she

sent it for her.

PREPARING THE TRACK FOR 1928

PULITZER TROPHY TO LIEUT. BETTIS, U. S. ARMY ACE

Speed of 248.99 Beats the Navy's Entry.

New York, Oct. 12.—(Special)—Lieut. Cyrus Bettis, army ace, captured the Pulitzer race today from Lieut. Alford J. Williams of the navy, at 248.99 miles an hour, shattering the record of 243.66, set by his rival in St. Louis in 1923. Williams could show but 241.71.

Modest was Bettis in victory—and the crowd in the grandstand. But the night he had stayed up working on his engine, which had proved unsatisfactory yesterday. Then he sprang out of bed, half asleep, to risk his life in the air.

Williams May Try Again.

Next year his place in the Pulitzer race will be taken by Lieut. Thomas K. Matthews, who, flying a pursuit plane in the John L. Mitchell trophy race, has come into the privilege of meeting the navy's entry—Williams, perhaps, if the navy sends its favorite into the lists again.

Williams took the air first. Bettis followed in a few seconds. They were gaining altitude while the crowd was digesting an announcement that instead of putting four pursuit planes in the same heat with them, as originally planned, the Curtiss racers would have a heat to themselves.

Canvas Fabric Rips Off.

As Lieut. Williams neared the first pylone, the thin canvas fabric of his left wheel tore loose in the terrific breeze and flew to the field.

Lieut. Williams' speed for the first lap was 243.69 miles an hour, one one-hundredth faster than his record made

in 1923. The army ace led in the first lap with 247.81.

Williams dropped a mile in the second lap. Bettis increased his speed a mile on the second lap, widening the distance between the navy and army record speed of 243.62, set by his rival in St. Louis in 1923. Williams could show but 241.71.

Crossing the line ahead of Bettis, al-

though beaten in point of time, Williams soared over the field for several minutes before he landed. Both victor and vanquished drew a gigantic cheer.

The announced time for Bettis' record was 29 minutes 56.99-100 seconds.

Williams 51.5-100 seconds.

Bettis won \$2,000 in Liberty bonds, the Pulitzer trophy, and a gold plaque.

To BUSINESS EXECUTIVES

BY graph and chart you can estimate the sales-potential of a new market—but it is only by close study that accuracy is assured.

The trend of men's styles can also be predicted with great precision—but only by close students of style development.

In our organization are men who can foretell them correctly—not only by instinct, but also by constant intimacy with new tendencies in the fashion centres of the world.

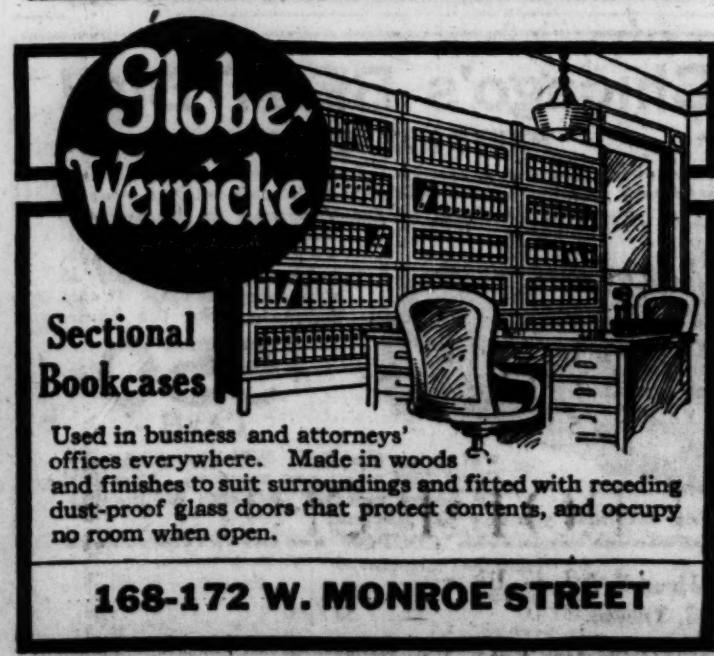

And never were men's styles more distinctive than the Stratford creations we are offering for Fall.

Would you not prefer the Capper label—when it costs no more?

MYSTERIOUS GAS POISON PERILS LIFE OF EXPERT

Scientist Is Found Near
Death by Wife.

BY JOHN STEELE.
(Chicago Tribune Press Service.)
LONDON, Oct. 12.—Mystery surrounds an accident to Prof. Harold Maxwell Lefroy, a British expert on poison gases who was found by his wife and an attendant Saturday night, unconscious from gas poisoning. He was at work in a secret laboratory of the College of Science and Technology in South Kensington.

Prof. Lefroy was hurried to St. George's hospital where he still lies unconscious. His condition is similar

to that from drowning. His lungs are filled with an unknown liquid which is slowly strangling him. The doctors say his symptoms indicate a gas containing chlorine.

This is the second time Prof. Lefroy has been a victim of his enthusiasm for science. Six months ago he was slightly poisoned while experimenting with a gas to kill flies which would not be dangerous to man.

His room was always kept locked and used to it bore a sign reading, "Dangerous, this room must not be entered."

On Saturday night Prof. Lefroy's

POSTAL ROBBERY AT LOS ANGELES GROWS TO \$300,000

Los Angeles, Cal., Oct. 12.—(AP)—R. C. Knox, postal inspector in charge of investigation of the mail truck robbery here last Thursday, today officially estimated the loot stolen at "slightly in excess of \$200,000." Previous estimates had been considerably lower.

Two more suspects were arrested today, making a total of five in custody.

HELD AS \$5,000 CAR ROBBER.

Roland Yelverton, 28, of 1809 Indiana ave. and arrested in the C. P. L. Freight yard at South Chicago yesterday confessed to freight car robbery exceeding \$5,000, according to a railroad detective.

Two more suspects were arrested today, making a total of five in custody.

The Dirtiest Thing In Your Home—

is that unsightly menace to health—the uncovered radiator

NOT only is it dirty and unhealthful, but it is also expensive. The dust-laden air currents from the open radiator carry a ruinous smudge to the draperies and decorations; the dry unmoistened heat checks and shrinks woodwork and furniture; the rugs give less service and the family's health is impaired.

Winter has become the most unhealthful season of the year, because the air of the average home is as dry and enervating as that of a desert. Those who must breathe it—little folks, mothers, school children and office workers—soon lose vitality and their power to resist disease, so that winter to many homes means coughs, colds, "sick spells" and doctor bills.

You have shut your eyes to these conditions heretofore, because there seemed nothing could be done about it. But there is something to be done about it, and it's that "something" that you should know about.

You can disguise this disfigurement—the uncovered radiator—as a piece of fine furniture, a restful seat or a convenient shelf, useful the year around; you can end the mischief of this germ distributor and convert it into a

safeguard for the family's health; you can suppress all its smudge and soot that ruin your draperies and decorations; you can change its hot, dry heat, that withers plants, shrinks the woodwork and checks the furniture, into soft, moist atmosphere suitable and healthful to breathe. You can do all this by a single act—install the Humidiator.

The Humidiator restores the precious humidity to the air. It traps the arising dust and germs within its humidifying top, and this beautiful art metal radiator cover completely hides the bare, ugly coils from view, while it blends with the artistic harmony of your home.

Sturdily constructed of durable sheet metal, heavily coated with baked enamel and finished to harmonize with your scheme of decoration; with no hinges to rust and no openings to mar the beautifully finished top, no dripping from condensation, the Humidiator has no equal in either value, durability, or appearance. A complete display of all styles and models can be seen at any of these exclusive dealers listed below.

NATIONAL POLITICS.

Democrats have begun to talk of their national nominations. They were started off by the clean up given Hyatt and Hearst by Gov. Al Smith and Tammany. That settled the question. If there had been one, of who was who in that state and in the east generally. It is assumed that Smith is again a candidate for President and also assumed that again he cannot get out of the convention as a candidate because of his religion and because he is wet.

The wet Democrats, most of them being east of the Mississippi river, prefer him but are willing to support Gov. Albert Ritchie of Maryland, a personal dry but a wet on political and constitutional principles and not an adherent of Gov. Smith's religion.

The theory that religion has no part in the American political system is a theory outside of the system. The opposite is true inside. In the primaries, conventions, and elections. If Gov. Smith were nominated there would be a number of issues in the platforms and only one in the voting. Many people deplore that and all ought to, but the results get along.

A wet candidate hasn't a chance with the Democrats of the south and west in a convention, but the issue is the only real one the party has other than the perennial one of "turn the rascals out." Republicans have virtually accepted Mr. Coolidge as their candidate. If he keeps his health he'll be renominated and no one is speaking of it as a third term. And Republicans are not worried that there is a Democrat who can beat him in election. They do not allow Volstead to make much controversy in the party. They are politically dry and stand pat on it. There is a good deal of evidence that Volstead is actually a more acute question now in the country than at any other time since the passage of the law, but it does not take political form and the eastern Democratic wets only divide their party when they raise it.

The Democratic national ticket in the opinion of some of the managers of the party will be useful in getting and maintaining local control, in the large cities, in counties, and in some states. A candidate with an engaging personality, a good campaigner, might make it easy for Democrats to keep the metropolitan areas in part of the country at least, New York, Chicago, Milwaukee, etc.

That does not do the Democrats in the south and west much good, but it is the national game as the easterners see it, and their most engaging personalities are wets, such as Smith and Ritchie, and the metropolitan areas are wet.

TO GET MURDER JURIES.

In a letter to the Voice of the People, John C. Husted advocates a plan whereby a venireman who avoids duty in a murder case should be sent to the civil branch to serve out his two weeks term.

In the case of general panels for the Criminal courts much of this system is now followed. A venireman excused in one trial is not permitted to go home, but must remain on hand to serve in other trials during his term of duty.

Special panels, however, are called in the so-called big cases. It is in these cases that jury evasion becomes a scandal, and it is on these occasions that Mr. Husted's system would be of benefit.

The member of a special venire is excused for good if he succeeds in disqualifying himself in the trial for which he has been called. The courts might get murder case juries if the law were so amended that a special juror, like a member of a general panel, had to serve out his two weeks term.

WHY THEY CALL US SHYLOCK.

M. Caillaux, the French minister of finance, has returned to Paris after attempting unsuccessfully to fund the French debt of \$4,000,000,000 to the United States government. His return gave the French press another occasion to call our country the Shylock of the nations. The Temps laments that such Americans as Alan Seeger, the young poet, who kept his "reverendous with death" while serving in the French army, have been succeeded by others who are only dollar chasers.

The French owe us \$4,000,000,000, on which they have been paying no interest at all, which our government is paying 4 per cent for the money it borrowed to advance to France. When we could not agree with their finance minister on terms for refunding the debt, we suggested to fix the interest rate for the next five years at 1 per cent and to postpone a final settlement. If 1 per cent was Shylock's rate of interest, we've all been much misled about him.

The truth is, we suspect, that neither the French government nor the Parisian editors really believe we are users. They are simply bargaining according to the tradition of the old world. The method reaches its purest form in oriental bazaars, but it is not entirely unknown in Europe. Abdul calls Allah to witness that his mother will die in abject poverty if he takes another penny off the prophet will bear out his assertion that the little Mahomedans will have no bread on the morrow if Abdul gets his figure. Each thereupon calls the

other a liar, a thief, an oppressor of the poor, and a discredit to the mother who bore him in sin. After these preliminaries the deal is closed.

France is playing that game now. We had offered to take only one-half of 1 per cent, we should still be called Shylocks. If we had offered to pay France \$40,000,000 a year, we should be called Shylocks for not offering \$30,000,000. The French are not going to make us angry. They are simply bargaining according to custom. Unfortunately for them, business by epithet is foreign to Americans and the outbursts of the French press strike us merely as in bad taste and more than a little silly.

DISCOVERING AMERICA.

We hung out the flags yesterday and celebrated Columbus day, the anniversary of the discovery of America. It is a good day to celebrate. As soon as America was discovered it was put to use. The discoverers, colonizers, conquerors and exploiters could not hit their stride at once but it was not long before the gold ships were sailing back home and the populace was being put to work on the land or being chased off it.

Europe fought all over Europe and the American seaboard for the favored parts of the new continent. There was no question that the strongest would get it and there was little moral doubt that they should. It was a garden spot and has been used under their direction for a year or two.

The ultra-violet in the light is very high in July, moderately high in September and very low in December.

Smoke is one of the most effective agencies in removing ultra-violet from the sun rays. The light from a shiny, clear blue sky contains almost as much ultra-violet as does sunlight itself.

There is much ozone in the extreme top layers of atmosphere surrounding the earth's surface. The sun rays, passing through these layers rich in ozone, are profoundly changed. The so-called active oxygen of fresh country air, of pine forests and such, is not due to ozone. There is no ozone in the air at or near the earth's surface. The quality of such fresh country air is due to nitrogen dioxide formed by the action of ultra-violet of the sun's rays on nitrogen and oxygen.

The different parts of the sun rays have different wave lengths. The unit of these is the Angstrom unit, or A. U. The very short rays, around 3,200 to 3,300 are highly destructive to bacteria, but they have no power of penetration.

The horny layers of the skin and the grease on the surface stops most of the shortest parts of the sun rays. The part of the rays around A. U. 3,000 give some what deeper into the skin and, affecting the glands, the glands produce sweat and freckles. This pigment in the deeper layer of the skin is responsible for the color of the black man, the yellow man, the red man and the brown man. It is the pigment in the pigment layer which changes the light rays so that it excites the nerves which regulate sweating. This layer protects the blood and the deeper

The different parts of the sun rays have different wave lengths. The unit of these is the Angstrom unit, or A. U. The very short rays, around 3,200 to 3,300 are highly destructive to bacteria, but they have no power of penetration.

Europe retains the idea that America is a land from which benefits should be obtained and up until a few years ago Americans encouraged the doctrine that there was an asylum here for any one who was hard pressed at home. The French gave us a statue with a torch lighting the way into the principal harbor. Europe is only anxious to help us.

Columbus is a good day for thought. We did not get the garden as the gift of the owners and we do not hold it for our own use against the rest of the world with the consent of the rest of the world. The rest of the world sees no moral reason why America should not continue to be discovered and the outsiders think we have no right to close up the land which was discovered in 1492.

THE OCTOBER SALE OF SERVICE PLATES

ALAD Plates, Dessert Plates, Bouillon Cups, Tea Cups and After-Dinner Coffee Cups—all included in this October Sale—have become as necessary and as important with the hostess as Service Plates. In no other accessory to entertaining can taste and discrimination be so evident. The sharp reductions make the products of famous potters doubly appealing. Service Plates, \$50 to \$400; Course Plates, \$25 to \$200.

Doulton Service Plate at left, pond green and ivory, dozen, \$300.

Spode Service Plate, center, cobalt and gold border, floral center, dozen, \$150.

Spode Service Plate, ivory and powder blue, colored flowers, dozen, \$125.

SECOND FLOOR, NORTH, STATE

Salad and Dessert Plates, top to bottom; Royal Worcester, dozen, \$75; Crown Staffordshire, \$135; Spode Pudding Plates, \$85; Coalport in green and gold, \$150.

Cauldon, small Coffee Cup, \$150 dozen; Spode Tea Cups, \$50; Staffordshire Bouillons, \$75.

RADIO SHOW

Lasts All This Week

HAVE you ever seen broadcasting done? It is one of the most interesting features of our Radio Show—a veritable carnival of talent. Morning and evening programs (opera stars and other artists) are broadcast over WGN and afternoon numbers over WHT. A fascinating array of dramatic and musical favorites is here in person. You are cordially invited to come in and watch them perform. The newest improvements in Radio Sets are also displayed and demonstrated at your request.

TODAY'S PROGRAM

In the Radio Section

11:30 to 12:30—WGN (370.2 meters)

Concert by Gunn School of Music—Miss Marguerite Wells, soprano, artist pupil of Albert Boroff; Miss Beulah Mowers, pianist, artist pupil of Glenn Dillard Gunn.

1:00 to 4:00 p. m.—WHT (238 meters)

Quartette from "The Student Prince," Edward Davies, Jack Rothblatt, Halfred Young, James E. Phillips (playing at the Great Northern Theater).

Novelty—Clairborne Foster, star of "The Patsy," now playing at the La Salle Theater and Ernest Truex of "The Fall Guy," at the Adelphi.

Hawaiian Orchestra from "Aloma of the South Seas," Garrick.

Willie Howard, comedian, star of "Sky High," Olympic.

Chat with Mitzi, star of "Naughty Riquette," Apollo. Herbert Clarke, solo, leading man in "The Patsy," La Salle.

Frank Thomas, featured player in "Aloma of the South Seas," at the Garrick.

Olga Cook, prima donna of "The Student Prince," Great Northern.

Halfred Young, solo, tenor in "The Student Prince." Solo by Ann Milburn, of the "Sky High" Company, Olympic.

James Phillips, solo, leading basso in "The Student Prince," Great Northern.

Stanley Lupino, featured player with Mitzi, in "Naughty Riquette," bits of fun and song.

Musical Program under personal direction of Mr. Pierre de Reeder, musical director of "The Student Prince." Entire program under auspices and by courtesy of Messrs. Lee and J. J. Shubert.

8:00 to 9:00 P. M.—WGN

Margery Maxwell, soprano, formerly of Chicago Civic Opera.

Hans Hess, one of America's foremost cellists.

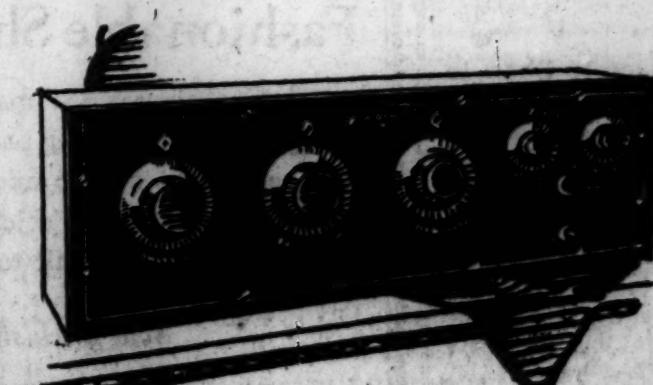

New Freed-Eisemann Set

One of Many New Sets
Displayed in the Radio Show

This make, already well known, answers the demand for excellent tone quality at a moderate price. Freed-Eisemann engineers have developed this Receiver after months of research and continued improvement.

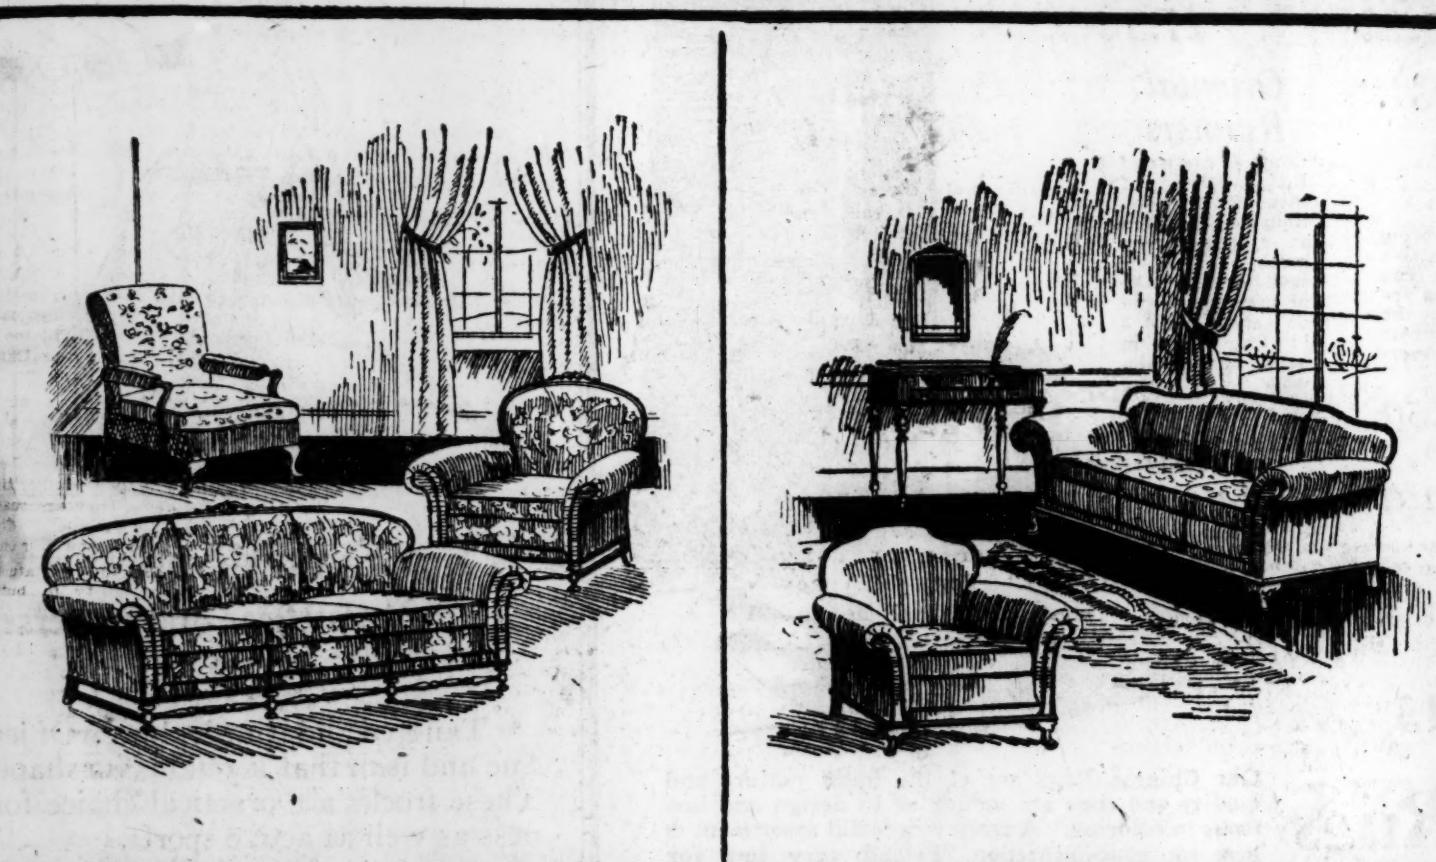

It is a 6-tube neutrodyne with a novel method of audio frequency amplification, providing splendid tone and great volume without overloading.

Model NR 7, \$110—Other Models \$75 to \$160

Demonstration in the Section of the New Photograph-by-Radio Process.

HOME WARMTH FOR MACMILLAN ARCTIC PARTY

Explorers Are Greeted by
Portland Luncheon.

Portland, Me., Oct. 12.—(AP)—Commander Donald B. MacMillan and the 31 members of his Arctic exploration party were welcomed home today by a prominent luncheon at a restaurant which extended from Wiscasset to this city and was attended by continuing bad weather.

Delayed by the worst summer the natives remember the party did not start the end of the expedition, but nearly all the members of the party had been welcomed home by gales (U. & U. Photo) which culminated in one which kept out the expedition, but nearly all the friends marooned on the small wind-swept Monhegan Island, the attitude of everybody was expressed by Commander MacMillan when he said at a luncheon here today, "This room looks good to us."

Delayed to the Last.

This last day was a long one. The men were astr on the ship before 4 o'clock, preparing for their return to the mainland when a break in the gale would come. It was shortly after 5 o'clock when the expedition got under way. To attend the luncheon scheduled by the Portland Rotary club the program at Wiscasset was cut to a brief interchange of greetings.

At the Rotary luncheon leaders of the state, the army and navy, as well as of science and education, joined in congratulating the explorer and his party.

The list of speakers included Rear Admiral Douglass E. Diermick, Col. John W. Wright, Congressman Carroll L. Beedy, Dr. J. Howard Gore of the National Geographical Society, Dean Paul Nixon of Bowdoin college, and Gov. Ralph O. Brewster.

Praised by Governor.

Gov. Brewster said: "The state of Maine rejoices to welcome Commander MacMillan and his associates safely home from an expedition which was re-

THOUSANDS OF AIDS CHEER 73D BIRTHDAY OF ROCK ISLAND ROAD

REFUSES QUIZ OF S. D. SENATORS IN FARM LOAN ROW

Jones Calls U. S. Grand Jury Move Politics.

Kansas City, Mo., Oct. 12.—(Special)—Two thousand employees of the Rock Island arrived here for the seventy-third anniversary celebration of the road.

Three Rock Island bands welcomed the visitors and their wives, including 435 pensioners, members of the "Ho-Or Roll."

President James E. Gorman arrived from Chicago in his private car. All day he was interrupted by delegations of friends. Virtually every highest officer of the system and officers down to division engineers and master mechanics are here, including F. H. Hammill, Chicago, executive vice president; H. G. Clark, assistant to the president; M. L. Bell, New York, vice president and general counsel; L. M. Allen, Chicago, vice president and passenger traffic manager; Frank L. Reed, Chicago, vice president in charge of purchases, and W. H. Burns, Chicago, vice president and general manager at El Reno, Okla.

markable alike for its courageous conception and for the dauntless individual heroism that made it possible.

Commander MacMillan, in his address, stressed again the hazard of flight of heavier-than-air planes above the Arctic circle, and reiterated his conviction that the amphibian type of plane carried was the best suited for the undertaking.

"For the plane there remains," he said, "much work in the interior of Baffin Land, discovered more than 400 years ago, but still unknown through most of its 600 miles length and 200 miles breadth. There are also thousands of unexplored lakes in the interior of Labrador where an airplane may work."

Supreme Court Adds 3 States to War on Chicago

Washington, D. C., Oct. 12.—(Special)—The Supreme court today granted the petition of Minnesota, Ohio, and Pennsylvania to join with Wisconsin in the suit to prevent Illinois and the Chicago sanitary district from increasing the flow of water through the Chicago drainage canal. Illinois was given until Jan. 4, to file an answer.

Prized by Governor.

Gov. Brewster said: "The state of

Maine rejoices to welcome Commander MacMillan and his associates safely

home from an expedition which was re-

them, they will be prosecuted to the full extent of the law."

Holds Politics Responsible.

Mr. Jones, like Senator Norbeck, held that the grand jury resolution was political.

Acknowledging that there is "much to be criticized" in rural credit af-

fairs, Mr. Jones felt that "criticism and criminal prosecution are two dif-

ferent things."

WILBUR ACTS TO SAVE OIL TANKS AT PEARL HARBOR

Washington, D. C., Oct. 12.—(Special)—Although orders have not yet been issued, the navy is about to change its policy in regard to the un-

filled oil tanks at Pearl Harbor and have them coated or filled with oil as

a precautionary measure.

A change of mind on the part of

the Postmaster General and Owen J. Roberts, special counsel to the government, who in the past have argued that to

fill the tanks while litigation is going on with Doheny might prejudice the

government's case, is one of the prin-

cipal reasons why Secretary Wilbur

has decided to have the tanks protect-

ed from rust, it was said at the navy

department.

Admiral S. S. Robinson, new com-

mander in chief of the United States

fleet, has stated in a report that he will

not be responsible if the tanks are

damaged.

Admiral W. L. Gregory, chief of the

bureau of yards and docks, who has

made a personal inspection of the

tanks, stated today he would recom-

mend coating the tanks with oil.

Sees No Incrimination.

Investigations of South Dakota's

\$50,000,000 excursion into a state sys-

tem of farm loans by legislative com-

mittee, the attorney general's office,

and by a special interims board, have

been by Senator Norbeck and Mac-

Master. Accordingly, he felt there

was no cause for immediate additional

action.

"If further investigation," the at-

torney general said, "does disclose

anything of a criminal nature against

either of the two senators, or both of

Woman Missing for Two Weeks Gives Up to Police

Gifts and Furnishings that are not high priced

Wherever you wander in this store, you'll find exquisitely beautiful home furnishings and gifts.

Not are these exorbitant in price.

True, there are pieces of extreme rarity—those that have served in old world families—these are costly.

So, too, are many fabrics, pieces of furniture painstakingly carved in allegory, nearly impossible blendings of high-fire glazes—marvelous things that represent years in the lifetime of the makers.

But, with these, there are hundreds of equally beautiful and interesting items that are priced unbelievably low, even as low as five dollars.

DESERT UTOPIA FAILS -- WHY? HUMAN NATURE

Los Angeles, Cal., Oct. 12.—[United News.]—Job Harriman, once America's greatest exponent of communism, admits that his faith is gone. For 35 years Harriman gave his fortune, the best years of his life, and many friends for the cause. Now he is broken physically and financially.

The city of Llano del Rio, in the Mojave desert, stands a silent, ghostly testimonial to Job Harriman's findings—a tragic, deserted, untenanted village which once flourished as the capital of communism in America.

Twelve years ago Harriman gathered a score of families together and settled Llano. One by one, communists from all parts of America followed the pioneers.

Forced to Conscript Cooks.

Homes of adobe were built. The men did the construction work and the women cooked in a great community kitchen. Enthusiasm waned after the first few weeks, and men had to be conscripted as cooks. The women would not work.

Finally, 750 people resided at Llano. A great community garden was planted and all essentials that make community life independent of the outside world were provided.

"Then the bubble broke," Harriman said, "for some of the colonists would not do their share. Some were not physically or mentally capable of fulfilling their duties. Some did not want to be laboring at the far end of the

field, when the dinner bell rang, for it meant that they would be late for meals.

Draw and Waste Food.

Theoretically the communistic idea seemed the solution of the world's woes, but I learned that social problems are not alone economic, but largely biological."

Until the Llano experiment Harriman would not believe that any one would consciously waste food, but eight families there daily dined their portion of fresh pork at the commissary, although they never touch pork, he says. They took the meat because it was their share, and when they brought it to their homes they threw it in the community garbage barrel.

"There were malicious gossips in the colony. One was always compared with another. There was jealousy, too," Harriman explained.

"We were supposed to get away from just that thing—maliciousness and competition—and we ran into it in Llano. Human nature is just the same, in the desert or in the city.

"Communism is a failure for a very fundamental reason. It lifts responsibility and checks, if it does not stop, the development of the individual. Not until the selfish urge becomes recessive and the love urge is dominant will communism become possible."

With the aid of his dog he drove them into a pen and fixed several hurdles to prevent their escape.

Then, limping in great pain, he carried three bags of fodder, which he put in the troughs for the lambs.

Having made certain that his charges would not suffer, Pearce limped over rough ground to his cottage, nearly two miles away, and there collapsed at the door.

BERRY PICKING IS SPORT FOR WOMAN EXPERT

HOPKINTON, N. H.—Picking blueberries is an adventure rather than work to Mrs. Edwin Straw, who spends two months every summer in a blueberry thicket on her husband's farm, 17 miles up in the hills from Hopkinton. Each summer for many years Mrs. Straw has spent her "vacation" picking blueberries from early morning until nightfall.

"I love it," she said. "I love this wild country here. It's so nice to get away from Goffstown, where we live in the winter. I just pick all the time, and I don't like to have it get dark, so that I have to stop. That's all there is to it. Most folks don't enjoy berrying enough to keep it up for long, but if they did they could pick 50 quarts a day. It's sport to me."

"I love it," she said. "I love this wild country here. It's so nice to get away from Goffstown, where we live in the winter. I just pick all the time, and I don't like to have it get dark, so that I have to stop. That's all there is to it. Most folks don't enjoy berrying enough to keep it up for long, but if they did they could pick 50 quarts a day. It's sport to me."

REPORT 30,000 PRONGHORNS IN NORTH AMERICA

WASHINGTON, D. C.—A careful census has been taken of the pronghorned antelope in North America, and the areas now occupied by these game animals have been approximately determined. The prong horn is the only species of antelope native to America. Through the occupation of its territory by man, it has been extirpated from many of its frontier haunts, but has survived in scattered, small herds over a very large proportion of its original range in sixteen of the western states of this country and in Canada and Mexico.

According to the census results reported by Dr. Nelson of the bureau of biological survey, there are now approximately 30,000 prong horns exist-

ing in North America in a total of 286 scattered bands. These numbers seem sadly meager in comparison with the millions once inhabiting this continent. It is to be noted, however, that the herds of this country at one time numbered from thirty to sixty million animals, and in view of the greater territory occupied by the prong horn it may be considered a conservative estimate to place its probable original number at not less than thirty to forty millions.

Genesee Conference Votes for Methodist Merger

Niagara Falls, N. Y., Oct. 12.—(AP)—The Genesee annual conference of the Methodist Episcopal church in session here today voted in favor of the union of the Methodist church north with the Methodist church south by a vote of 120 to 27. The vote for admitting laymen was defeated.

SHEEP TENDER BREAKS LEG, BUT GUARDS FLOCK

LONDON.—While attending his sheep on the downs at Pyecombe, near Brighton, George Pearce, an elderly shepherd, tripped over a rut and broke a bone in his leg. His cries for help having passed unheeded, he determined to round up his sheep before seeking aid for himself.

With the aid of his dog he drove them into a pen and fixed several hurdles to prevent their escape.

Then, limping in great pain, he carried three bags of fodder, which he put in the troughs for the lambs.

Having made certain that his charges would not suffer, Pearce limped over rough ground to his cottage, nearly two miles away, and there collapsed at the door.

Fried Chicken 65c Luncheon

There are no better chickens produced anywhere than these milkfed frys used in Stevens Building Restaurant 65c luncheons and dollar dinners.

Added to this superb quality you find always a genuine homelike taste which results only from careful preparation by skilled cooks.

HERE is the ideal golfing jacket for nippy rounds on bracing autumn days.

It is fashioned of suede as soft as chamois; the sleeves are knitted as is the trim.

Light in weight but wonderfully warm, a source of comfort on chill days and cold.

It may be had in many sportive shades of brown, gray and green, and in more vivid colors if you prefer them.

And, of course, it is distinctive, or Peck & Peck would not sponsor it.

Priced at \$19.50

PECK & PECK

NEW and INDIVIDUAL in Women's Shoes

The emphasis that short skirts have placed on shoes and hose has brought many styles that are extreme and bizarre.

In keeping with the Martin & Martin tradition of creating and maintaining correct styles, we have emphasized true smartness in our new 1925 models; but we have avoided the commonplace and sensational.

The well dressed woman wears Martin & Martin shoes with the knowledge that her feet are dressed smartly and in good taste.

The "DRAKE" illustrated above, in black satin and brocade, and priced at \$15.00, is one of many of our attractive Fall designs. Some of the new shoes are quite elaborate in design—others very simple. Prices range from \$14.00 to \$20.00 with a few at higher figures.

Uncle Sam Works on a Budget. Do You?

Innumerable letters from all over the country reach Washington with the plea: "The Government has put itself upon a budget basis. Tell us how we can do it for our families." As yet, however, the Federal Government has not made a model budget for the use of individuals.

Budget making, as well as saving, has become the fashion. The two go together inevitably. In the old days, the savers usually carried their budgets in their heads; now, with our more complicated living, a "black and white" budget is required. In the old days, too, people were apt to regard saving as hard; today we're getting over the notion that it's a penance. We look upon it rather as an insurance for comfortable living in the future.

When a budget is properly made the modern way, it takes care of the saving—the living insurance—automatically, so that there's no mental strain and fuss every month as to whether or not you should save that month. Then it takes care of the fixed expenses and allows you as much margin as your income warrants for care-free spending.

This bank has on its staff specialists in budget-making. We have some broad general principles that we go by, but we know that if a budget is to be highly successful, it must be fitted to the needs and likes and dislikes of the individual. We shall be glad to have you come in and talk over your budget-making.

Energine Will Take Them Out

Too bad... Spilled something on your pretty dress? Don't worry—Energine likes to take out spots. Put a little of this magic liquid on a cloth, give it a spot to rub, and watch the stains disappear. If, by chance, you haven't bought your can of Energine, get it from your drug, department or shoe store today. It's only 50¢.

EFFORT TO FIND REGICIDE GOFFE'S GRAVE IS FUTILE

Search Recalls Romantic Chapter in History.

HARTFORD, Conn.—Efforts in Connecticut recently to discover the grave of Col. William Goffe, one of the regicide judges, recalls one of the romantic chapters of early American history.

It was not many years after the Mayflower landed that the scattered colonies of Massachusetts, Connecticut and New Haven were stirred by the arrival of two of the regicide judges, one of whom was Goffe, fleeing the vengeance of the restored monarchy in England.

For twenty years the presence of the two in the colonies was a source of friction with the mother country, and their whereabouts to all save a few favored ones in the secret was a mystery of never ending interest. An occasional new letter kept them in touch with the outside world; they had a few books and a few close friends. But they could take no part in the social life of the communities in which they resided.

Goffe carried on a correspondence with his wife in England under an assumed name, his letters passing through the hands of Dr. Increase Mather of Boston. He kept a journal in which he recorded the wanderings of his exile.

In the fall of 1675 occurred King Philip's war, which was so disastrous to the infant colonies of New England. Hadley, being one of the frontier towns, was greatly exposed. On a public fast day, while the inhabitants were assembled in church, the Indians attacked.

At the time the custom was for all men to go to the meeting house armed, and the attack was so sudden and furious that the men of Hadley were thrown into confusion and little was being done to drive off the invaders.

At this point there appeared among them a stranger of commanding presence and in a garb unlike that usually worn by Indians in command. He formed the men and at their head charged on the Indians. The savages were routed, and then the mysterious leader disappeared as suddenly as he came.

Who he was nobody seemed to know. The townsmen were so much impressed with the occurrence that they came to the conclusion that an angel had been sent from heaven for their deliverance. Some years later they learned that their unknown leader, Col. Goffe, whose military skill gained under Cromwell, had been the means of their salvation.

Stonewall Jackson's Hostler, Ex-Slave, Is Dead

Washington, D. C.—Oscar (Pete) John Green, former slave and hostler for Gen. Stonewall Jackson throughout the civil war, was found dead in his home in Williamsport, near here, yesterday. Green reckoned his age as 98. He was born in Virginia.

"MOON" AND GUN START A CAREER; IT'S SOON OVER

Harry Senes of 1426 West Congress street, oiled his mail order pistol, drank a quart of moonshine yesterday afternoon and started his career as a modern Jesse James.

He went first to the back yard of Mrs. Helen Ruffing, 1012 West Congress street, where Mrs. Ruffing, her son, Fred, 20 years old, and her daughter, Jane, 17 years old, were handing out the family wash. Because they had no money with them the disappointed Henry fired at Jane and departed.

He walked on to the grocery of Michael Paradise, 1026 West Congress. He forced Paradise and two customers, James Catalana and James Kafora, to a rear room and tried to rifle the cash register. The imprisoned ones yelled and beat on the door. Henry fled and was shot in the door. Henry fled.

On the street he dashed into Mrs. Rose Lang, 1034 West Congress street. He fired and missed and Mrs. Lang fainted. Then came Policeman Lyon and McGinn. Henry tried to shoot them, but the gun jammed. They subdued him, rescued him from the crowd which had gathered and took him to the Desplaines street station, where he was booked on seven charges of assault to kill.

Yankee Assyriologist of Oxford to Wed London Girl

LONDON, Oct. 12.—(Special)—The engagement of Prof. Stephen Herbert Langdon and May Gregory, younger daughter of Thomas Gregory of St. John's Wood, London, has been announced. The marriage will take place in December. Prof. Langdon, who was born in Monroe, Mich., in 1876, is professor of Assyriology in Oxford university.

LENROOT LOSES CASTE AS A DRY WITH SALOON FOE

Milwaukee, Wis., Oct. 12. — [Special.] — Senator Irvine L. Lenroot of Wisconsin can no longer be classed as a friend of law enforcement and of prohibition, according to the opinion of H. C. Long, president of the Wisconsin Anti-Saloon League, as expressed at a meeting of the methodist ministers association today.

Heretofore Senator Lenroot has been considered a "dry" but the recent appointment (U.S. & Photo.) of Levi Bancroft to the post of assistant United States attorney has been laid to his authority, and Bancroft is alleged to be "wet." His appointment as assistant prosecutor was frowned upon by the Anti-Saloon League, which attempted to prevent his taking office.

D. W. Hutton, former field agent for the Anti-Saloon League, charged that real law enforcement in the state was being blocked by public officials. Hutton even linked the name of Senator Lenroot with the defense of John Anton, sentenced to prison several months ago for his part in the \$40,000 whisky robbery of the Badger Drug Co. in Plymouth, Wis. Hutton intimated that he had the evidence of corruption of public officials in this case and would welcome the district attorney to question him on the matter.

PEARLS FOUND IN COCONUTS. A certain form of pearl grows in coconuts.

Larson's Sta-Right Shoes are good for Your Feet

If you are troubled with corns, bunions, weak ankles, or kindred ills, why not make this test? Put your feet in Martin Larson's hands and let him prove to you how wonderful the Plaster Cast System of Shoe Building. This system provides you with the shoes that nature intended for your feet, corresponding line for line with your own foot's peculiar contours. Every muscle and nerve in the body are affected by wrong shoes; once you have worn Martin Larson's no others will do.

Sta-Right Shoes are built to fit you. They are modeled according to Martin Larson's Plaster Cast System and cannot be wrong. They are stylish in appearance, yet so perfectly fitted that they feel good and wear long.

Made to your measure, \$25 and up; over plaster cast, \$35.

Golf Shoes that makes golf a pleasure—their flexibility and perfect fit bring you to the last green with happy thoughts. Its structure is orthopedically correct.

Women's Shoes Styling in women's footwear is essential. Martin Larson's fit you with a glove. The inside of your shoe is conformed to the line of your feet; the outside follows the latest vague in high grade footwear.

Sta-Right Arch Protector Brings Quick Relief from fallen arches fits snugly into your shoe. It is a glove with any shoe—\$10 a pair, with plaster cast, \$20.

COUNTY LOSES IMPORTANT SUIT TO DANCE HALLS

Florida, Oct. 12. — [Special.] — Dance hall proprietors in Pontiac and Lincoln won the right to a county license in lawsuits against county boards to-day, and as a result dance hall managers of the entire state expect to win their fight under the law, without going into the Supreme court.

Alex Fish of Mimbres, president of the Illinois Association of Dance Managers, made this announcement after a meeting here today.

"Every dance pavilion in Illinois which has been refused a license," he said, "will be advised to bring suit against the county board of supervisors which caused the refusal."

He explained that returns in most places were based on some superiors' prejudice against Sunday dancing, which led them to vote a license.

**Deny Gary Poison Widow
New Trial; In Prison Today**

A motion for a new trial for Mrs. Anna Cunningham, Gary's convicted second widow, in the Criminal Court at Chicago yesterday was denied. The trial will be taken to the state prison at Michigan City to begin serving the life sentence passed upon her. There will be no appeal to the Supreme court.

Mrs. Cunningham was convicted for poisoning of her 10 year old son, Walter. In her confession she admitted poisoning two other of her children.

PRISON DOES NOT NOW LOOK SO BAD TO WORTHINGTON

Atlanta, Ga., Oct. 12. — [Special.] — John Worthington, who shattered his health for a year to escape a prison sentence, today accepted the government as his benefactor and keeper. At the end of his second day in the Atlanta federal penitentiary, for fraud and use of mails, the wolf of La Salle street admitted he was better off in prison here than he had been wandering about Mexico, sick and feeble, to avoid the law.

The prison walls did not seem so harsh today. From the windows of his room on the third floor he does not see the prison walls but looks beyond at wooded, rolling hills that form a green background. The room is spotlessly clean and by his bed is a table and night lamp; while a physician and nurse are at his call at all times.

**Seek \$60,000,000 a Year
in Small Hourly Increase**

Officials of the Maintenance of Way Employes and Railroad Shop Laborers' union yesterday presented evidence at a hearing before the United States railroad labor board to show that their 600,000 members are entitled to a five and six cents an hour wage boost. The increase would cost the railroads about \$60,000,000 a year.

MONROE LAST TO WEAR KNEE PANTS.
Monroe was the last President to wear knee breeches in office.

OPEN TRIAL OF EX-KLAN DRAGON FOR KILLING GIRL

Noblesville, Ind., Oct. 12. — [AP] — A man believed to be Joe Stemas, wanted at Tolosa for the slaying of the sheriff of Marshall county and the killing of the chief of police of Tolosa, is being held here today. Although the man denies he is Stemas, Lee Stemas, a son of the hunted man, who lives at Cuba, told Deputy Sheriff Hagemann that the suspect is his father.

**Son of Toluca Slayer Says
Jail Suspect Is His Father**

Lewistown, Ill., Oct. 12. — [AP] — A man

believed to be Joe Stemas, wanted at

Tolosa for the slaying of the sheriff of

Marshall county and the killing of the

chief of police of Tolosa, is being held

here today. Although the man denies

he is Stemas, Lee Stemas, a son of the

hunted man, who lives at Cuba, told

Deputy Sheriff Hagemann that the

suspect is his father.

Thirteen witnesses

were examined during the first day of the case, four

being excused on challenges for cause

by the state and 12 for the same

reason by the defense. Not a man

had been accepted temporarily by both

sides when court was adjourned.

DRAG FOR DROWNED BOY'S BODY.

The body of Richard Brooks, 15, of 869 Wrightwood avenue, who was drowned in Lake Michigan Sunday when the canoe in which he and his brother, 13, were boating capsized off Kenilworth, had not been recovered yesterday by police who were dragging for it.

CHARGE LAWYER DRAFTED BRIEF OF MRS. LELAND

Dr. Case's Attorneys See Publicity Move.

Mrs. Charlotte Leland's brief, prepared several weeks ago, was filed in the Illinois Supreme court in her husband's divorce case naming the Rev. Carl D. Case as co-respondent, and said to have been drawn by herself, boomeranged at her yesterday when Attorneys Frederick Brown and Delbert Clithero, representing Dr. Case, in an answering brief, charged that Mrs. Leland's lawyers wrote her document.

Ascribe Four Motives.

"We think," the brief filed in Springfield yesterday reads, "Mrs. Leland and her legal advisers had four objects in having the brief filed in her name:

"The desire for publicity.

"Her desire to give testimony which the state Supreme court held today.

is not in the record.

"To impress upon this court that she is a poor and much abused woman.

"To show that she is able to write a brief such as that and therefore is not mentally unbalanced."

The more specifically, another paragraph says:

"While it may be the hand of Esau, we think it is still the voice of Jacob (Moss.)"

Absurd, Say Moss and Olds.

William R. Moss, Mrs. Leland's former attorney, and Mifflord Olds, Leland's counsel and now in partnership with Mr. Moss, yesterday characterized as "absurd" any suggestion that they had had anything to do with the preparation of the brief.

Mr. Olds pointed out that Mrs. Leland had written down her document to the Supreme court, might be legally construed as joined with Dr. Case in the proceeding.

Whereas, he maintained, with Mrs. Leland out of it, Dr. Case would have had no legal standing before the court and his petition might have been dismissed.

Every Member of Realty Firm Must Have License

Tallahassee, Fla., Oct. 12.—(AP)—Every member of a realty firm doing business as a co-partnership Florida must hold a license as a real estate broker before such partnership is entitled to a real estate broker's license.

"The desire for publicity.

"Her desire to give testimony which the state Supreme court held today.

RADIO WILL HEAR DAMROSCH AND SCHUMANN-HEINK

New York, Oct. 13.—[Special]—Concerts conducted by Damrosch, Mengelberg, and other great musicians, and recitals by Josef Hofmann, Schumann-Heink, and other great artists will be broadcast in a series of six entertainment given by Steinway & Sons and the Radio Corporation of America, it was announced tonight.

The first of the Steinway concerts, which will be broadcast from New York, Washington, and Schenectady on Oct. 22, will be the division of Mengelberg. The program will include a recital by Hofmann. A festival hymn composed by Mengelberg for orchestra and baritone solo will be rendered for the first time in this country. Fraser Gange will be the soloist.

On Nov. 8 Walter Damrosch, on the piano, and Paul Kochanski, accompanied by the Steinway String orchestra, will give the "Kreutzer Sonata," which will be broadcast from WJZ, WRC, and WGY.

11 DIE IN AUTO ACCIDENTS.

San Francisco, Calif., Oct. 12.—Eleven persons were killed in automobile accidents on the Pacific coast yesterday and one person died when a railroad train hit a huge boulder.

5 RICH PRISONERS ON PAROLE QUIT PEN IN ATLANTA

Atlanta, Ga., Oct. 12.—[Special]—Five prisoners, each reputed to be worth at least \$1,000,000, left the federal prison late yesterday on parole.

Richard Bailey of Savannah and C. C. Tuten of New York, leaders in the Savannah liquor running field, left for

their homes. They said they were through with the run business.

Frank P. Fuchs, formerly vice president at Evansville, Ind. bank; Clyde Hunter and Lewis Barnes, ex-assistant solicitor general and sheriff, respectively, of Gary county, Ind., and known as members of the Gary gang at the prison, were the others paroled.

Fuchs is said to have violated the national banking laws, while Hunter and Barnes were convicted for conspiracy to violate the dry laws.

Turkey Ready to Join League if Mosul Deal O. K.

[Chicago Tribune Press Service]—LONDON, Oct. 12.—It is reported that the British ambassador, Ronald Lindsay, interviewed members of the Turkish delegation to the Mosul conference, from which he gained Foreign Minister Tewfik Ruchdi's statement that Turkey is ready to join the League of nations, if the Mosul situation is satisfactorily settled.

THINGS YOU WILL WANT TO SEE IN MIAMI

The "Everglades" A Fred F. French Apartment

In 1910 the population of Miami was 5,500 inhabitants. Today, this "magic city" numbers over 250,000 permanent residents, while in the winter there is an influx of over 200,000 visitors.

To care for this rapid growth, Miami's building activity has been forced to break every record the world has ever set. Last year \$30,000,000 in building permits were issued in greater Miami alone. This year sees that amount doubled.

The "Everglades" Apartments is a typical example of the permanent, solid construction for which these vast fortunes are being spent. In this one apartment, the Fred F. French Company of New York are said to

have invested two million dollars. Small wonder then that its fifteen stories of Spanish architecture rival in splendor the luxurious skyscraper homes of Park Avenue and Michigan Boulevard; its appointments and floor plan set a new standard, for Miami, in modern home comfort.

Though the "Everglades" is

over a thousand miles from New York, the cost of its construction was financed by the French Plan and the large proportion of its preferred stock subscribed by northern investors. Is not this another proof of the confidence northern business men have in the stability of Miami and that they recognize in the future of this remarkable city, a golden opportunity for all?

Of course, when you visit Miami, you will want to see a real estate firm on whose knowledge and judgment you can rely. Of 13,000 licensed brokers we are one of a scant few who have been here any appreciable length of time. We know Miami from the standpoint of the past and present. We are builders too, the most completely equipped in Miami.

LOOP MOVIE MAY BE CLOSED TODAY BY POLICE ORDER

Chicago Theater Faces
Action; Permit Refused.

Chief of Police Collins plans to close the doors of the Chicago theater today and arrest its owners, Balaban & Katz. Acting on the advice of Corporation Counsel Francis F. Busch, the chief intends to ask Mayor Dever to revoke the permit of the loop's mammoth movie palace.

Back of the chief's drastic action is the refusal of the board of censors to grant a permit for showing "Her Sister from Paris," a film featuring Constance Talmadge in a twin sister role. The censors, headed by Mrs. Mabel Rockwell, think Constance is "indecent and immoral" in the way she does her bestmannish stuff in some of the scenes. The film began its run yesterday without a permit under a mandamus obtained by Superior Judge Hugo Pan's court by First National Pictures, Inc.

Can Use Several Methods.

When the chief appealed to the corporation counsel for advice, Mr. Busch said any one of several methods could be used in stopping the show.

"The film cannot be shown lawfully in Chicago," Mr. Busch said. "The duty to prevent the showing is mandatory."

The four methods by which Chief Collins may act, according to the corporation counsel, are: (1) confiscation of the film, (2) revocation of the showhouse license, (3) revocation of the license of motion picture operator, and (4) arrest or summons of the exhibitor for violating the permit ordinance.

The second and fourth methods will be most effective, the chief opined yesterday.

Seek to Revoke License.

"I will ask the mayor to revoke the theater license and will issue summons for the proprietors of the movie house tomorrow," he said.

The city administration plans to appeal to the higher courts against the mandamus, but by the time an opinion could be obtained everybody in Chicago could see the film if it were shown in no other way.

Columbus day holiday crowds had a keen appetite yesterday for what the censors said they should not see.

ARREST WOMAN IN KILLING.

Police yesterday arrested Catherine Wallace, 21, of 1122 Larrabee street, in charge of murdering Ossie McClellan, also colored. McClellan was stabbed at 1122 Larrabee street.

MILLIONAIRE AIDS IN LAKE RESCUE; BOY IS DROWNED

I. A. Bennett of 185 Sheridan road, millionaire head of the I. A. Bennett Electrical company, 112 West Adams street risked his life and led three other men in a daring attempt to rescue three frightened boys from drowning after they had overturned in a canoe stolen from the Kenilworth Boat Club Sunday.

One of the boys, Richard Brooks, 15, 685 Wrightwood avenue, was drowned.

The other two, paddling frantically to the rescue in a water soaked old sail boat were all but swamped several times.

The rescues were effected near Mr. Bennett's home, from the lawn of which his little daughter first discovered the plight of the youngsters as they struggled in the water.

Those who assisted Mr. Bennett

were George Schaeffer, Wilmette motorcycle policeman, William Salinis, and James Mindy, both of 1165 Larrabee street, Kenilworth.

The boys saved were Joseph Minogue, 14, of 433 Belden avenue, and Edward Roder, 16, of 2235 Larrabee street.

School Children Decorate
Duplicate of Santa Maria

Two hundred and fifty Chicago school children decorated the caravel Santa Maria, in the yacht harbor at Jackson park, with autumn leaves yesterday in celebration of Columbus day.

Thomas J. Normoyle, an overseas secretary for the Knights of Columbus during the war, recited Joaquin Miller's poem "Sail On."

The caravel, built on the same dimensions as the original Santa Maria used by Columbus, has the anchor that was used by the discoverer of America.

Community Building

EXTENSION of a street car line invariably results in immediate increase in the value of adjacent real estate. Often the price of property doubles or trebles within a short time. Why?

Because the tracks in the streets, laid at a cost of \$125,000 a mile, are a guarantee of future continuous transportation, affording quick, reliable, safe and comfortable access to every part of the city, and at the lowest cost.

Street car service is permanent.

The investment in tracks and pavement makes it a part of the community, vitally interested in the growth and prosperity of every neighborhood along the lines.

Street car transportation made possible the Chicago of today. Thriving business sections and delightful residence communities followed Surface Lines pioneering.

The fact that 80 per cent of the riding on public conveyances in Chicago is on street cars sufficiently proves their importance in business and social life.

The convenient street car line is an important factor in the value of your home.

\$683,000 GEMS BACK TO OWNERS VIA UNDERWORLD

Woolworth Heiress to Get Stolen Goods Today.

New York, Oct. 12.—(P)—Information was obtained at police headquarters today that arrangements have been made through underworld channels for the return tomorrow of \$683,000 worth of jewelry stolen from the Hotel Plaza apartment of Mrs. Jessie Woolworth Donahue on Sept. 30.

Representatives of the persons who have the jewelry communicated with the Donahue. It was learned at police headquarters that the tentative hour for the return of the jewelry was fixed at 1 o'clock tomorrow afternoon, and to take place in an unnamed part of the city.

Police investigators said return of the stolen goods would not deter them from arresting the criminals if their identity could be learned.

Chief Assistant District Attorney Pecora said he received a telephone call Saturday from an unidentified insurance company offering to return the jewels, and had made an appointment for representatives of the company to call at his office, but they failed to appear.

Pecora said he would not consent to any return of the loot on a "no questions asked" basis.

TOUCHES POWER CABLE: DIES. Joseph Morris, 55, of 1040 West Jackson Boulevard, was electrocuted when he touched a power cable while working on a chimney at 7241 South Racine avenue.

8,000 ISLANDS ARE OWNED BY U. S.; TRADE ENORMOUS

WASHINGTON.—It appears from government reports that Uncle Sam owns just 8,000 islands. Ten million people inhabit these islands, and their commerce amounts to more than \$300,000,000, which is beyond the commerce of the entire United States previous to the year 1850. One hundred million dollars worth of products are shipped to the United States from these islands every year, and about as much goes back to them from us.

It is not yet 30 years since Porto Rico came under the rule of our gov-

ernment. There was one schoolhouse on the island then; there are 2,000 today. The number of pupils has grown from 25,000 to 200,000. Good roads have also been extended from 40 miles to more than a thousand miles. Sugar has increased from 65,000 to 400,000 tons a year.

People said at the time Alaska was purchased from Russia, at a cost of \$50,000,000, that it was a foolish purchase. But the canned salmon of a single year alone from that territory now amounts to more than the original purchase of that vast land. For years the value of sealskins was annually about the same. And, as for gold, everybody knows that many fortunes have come out of Alaska.

—

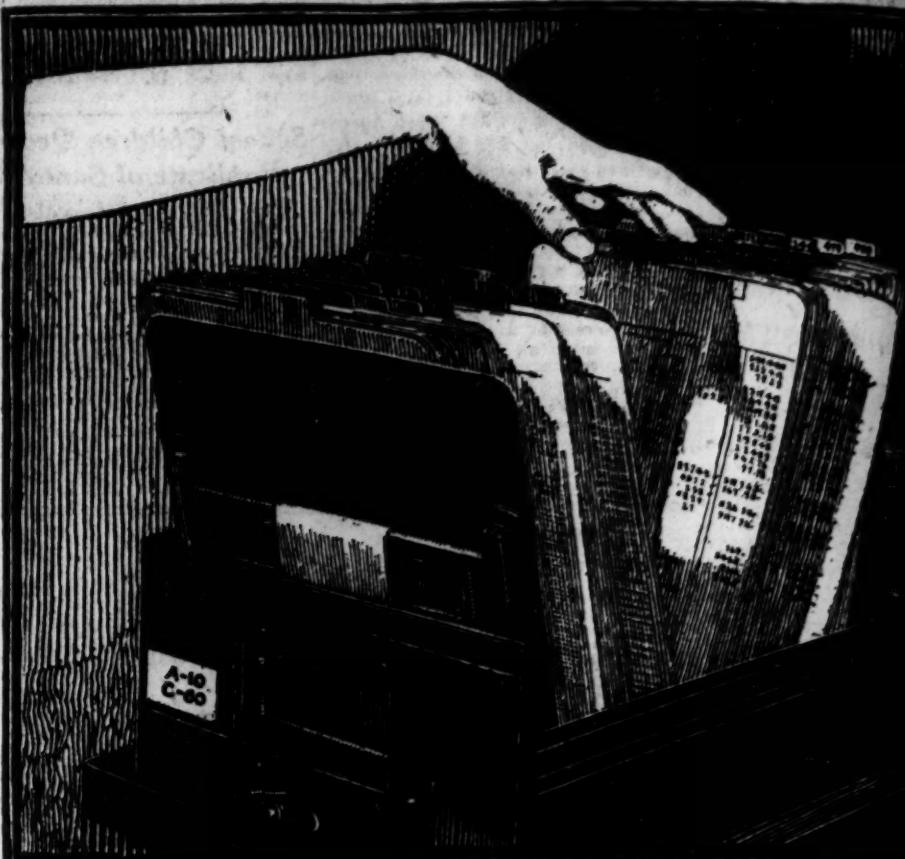

BRITISH COURT REFUSES TO HALT ART FOR U. S. SALE

(Chicago Tribune Press Service.) LONDON, Oct. 12.—The British law courts reopened today after a long vacation and the first business of the divorce court was to hear applications to make permanent 179 decrees nisi granted in the last term.

A curious application was made by the earl of Mayo to restrain Knight & Rutley auctioneers from sending abroad or negotiating in the sale outside of Great Britain of the art collection of the late Lord Leverhulme, which is to be sold to the Anderson galleries of New York.

The earl of Mayo is the head of a number of patriotic organizations which object to the "robbing of Great Britain" of its objects. The court declined to make the order.

THE CHOICE OF AMERICAN BUSINESS

TWO WAYS it cuts bookkeeping cost

First—the L. B. Card ledger saves bookkeeper's time
Then—it reduces mounting office overhead

Did you ever figure out the exact cost of a bookkeeper in your office? To begin with, there is the salary you pay.

Then, you pay for rent, light and heat. You pay the cost of supervision. You pay interest and depreciation on the bookkeeping machines and other equipment. It is these overhead costs that make the total cost of each bookkeeper easily double, sometimes treble the actual salary.

With the L. B. Card ledger, bookkeepers can locate, machine post and replace an account so rapidly that 10%, 30% and even 50% increase in bookkeeping efficiency is effected. Overtime becomes a thing of the past and frequently the department can operate with fewer clerks and less overhead. The L. B. Card ledger is today the most widely used ledger for machine posting and the most economical.

Stop at our convenient salesroom where you will find the L. B. Card ledger on display in many sizes and types. Or phone for an L. B. salesman to call at your office.

The TEE-TIME Frock for year 'round wear

Makes its fall appearance

With collar, cuffs and waist \$35 Travel-club or country wear

At last! the flawless knitted frock that fits into every outdoor scheme

Of Australian zephyr yarns, fine, soft and supple, these new frocks, so versatile in correctness, are most indispensable in the smart wardrobe. Eight reasons for the increasing popularity of the Tee-Time frock are listed below:

1. Hangs straight from shoulders and does not cling.
2. Will not stretch—being knitted with a patented lock stitch.
3. Is not too warm—being porous and heat absorbing.
4. No hooks—no eyes—no snaps—no buttons.

Design patent applied for.

French lingerie sets, 16.75
Hand-tailored—crepe de chine

Excellence of workmanship and material characterizes these beautifully hand-tailored garments from France. Deftly enhanced with hand hemstitching in novel designs, these sets employ the most delicate of pastel shades.

FRANCE CAUTIOUS ABOUT REFUSING U. S. DEBT OFFER

Face \$400,000,000 Di-
lemma in 1929.

PARIS, Oct. 12.—(AP)—The prospect of having to pay \$400,000,000 for war debts in a lump sum in 1929, if the temporary debt settlement proposed by the American debt funding commission is not accepted by France, is exerting a strong influence on the attitude of the government, it is said in well informed circles. The question has been discussed tentatively by the cabinet, but M. Caillaux lays stress on the fact that if the temporary arrangement were not satisfactory, mainly of the war stock indebtedness faced France in the face and must be taken into consideration.

It is doubted whether the question will come up for decision before parliament reconvenes late in October or early in November, and important internal political controversies are dealt with.

Some members of the French mission lately have warned the public against hasty conclusions, in view of the difficult position in which the French treasury would find itself, if nothing were settled now, and the question were left in abeyance until complicated by the approaching maturity of the war stock debt.

Belgians Leave Friday.

BRUSSELS, Oct. 12.—(AP)—The Belgian mission for the funding of Belgium's debt to the United States will leave for New York aboard the steamer Lapland, which sails from Southampton on Friday next.

The mission is composed of M. Van de Velde, minister of agriculture, and M. Houhin, government minister, and M. Van der Land, director of the National bank.

They expect to return to Brussels about Nov. 10.

Italians See Mussolini.

ROME, Oct. 12.—(AP)—Premier Mussolini today gave his final instructions to the Italian delegation which will leave next week for Washington to negotiate for the funding of Italy's war debt to the United States.

The instructions were delivered after the premier had had a long conference with Count Vittorio Emanuele of Savoia and head of the delegation, Count Longare, former ambassador to France; Dr. Mario Alberti, who took part in the earlier Washington debt negotiations, and Dr. Alberto Pirelli, a member of the Dawes committee, all of whom are members of the debt mission.

LEGION POST IN A LETTER BACKS UP MITCHELL STAND

Charles S. Matthews, commander of Aviators post No. 743, American Legion, past national commander of the Legion, an open letter stating that members of the Legion support the recommendations of Col. William Mitchell for the placing of the air forces of the country in a special department separate from the army and navy.

"Col. Mitchell charges Lieut. Pier-
son, Capt. Speed, and other air service
men have been killed while compelled

to fly defective aircraft in propaganda schemes," the letter states. "I have talked with members of this post and we agreed that Col. Mitchell's charges show that air service conditions are deplorable as reported in the investigation of the aircraft fraud printed in the Legion Weekly for Sept. 15, 1925."

"We believe in a unified control of air forces under a secretary of national defense, with undersecretaries of air, army, and navy."

"Col. Mitchell charges Lieut. Pier-
son, Capt. Speed, and other air service
men have been killed while compelled

to fly defective aircraft in propaganda schemes," the letter states. "I have talked with members of this post and we agreed that Col. Mitchell's charges show that air service conditions are deplorable as reported in the investigation of the aircraft fraud printed in the Legion Weekly for Sept. 15, 1925."

"We believe in a unified control of air forces under a secretary of national defense, with undersecretaries of air, army, and navy."

St. Louis

*In the midst of a building boom
such as she's never had ~ ~ ~*

More than 1500 jobs worth 44 millions

You hear a great deal these days about "booms" This city or that city is "forging ahead by leaps and bounds." Such-and-such a place "has doubled its population in ten years, and now ranks fifth," and so on.

And you read and hear how thousands of people are swarming to states and cities where "booms are on." . . . Men closing up their places of business and transplanting their families . . . Industries flocking to new El Dorados.

"Booma."

But there are two kinds of booms. . . . One starts with a boom and perhaps ends with a BOOM!?!?

The other develops gradually . . . Establishes a solid foundation, and builds for permanent growth.

You can decide for yourself which kind profits a city the most.

St. Louis Is Today in the Midst of Her Greatest Era
Building activity is establishing high records in St. Louis.

The first nine months of 1925, with building permits totaling \$44,266,810, showed greater activity than any previous corresponding period; and, indeed, eclipsed all previous entire years.

Today there are from 1500 to 2000 building jobs "in work" in and near St. Louis—Hotels, Office Buildings, Theatres, Churches, Hospitals, Apartments, Homes and Factories. Many new subdivisions already are thickly dotted with homes. Others show rapid progress in construction.

All this present program has come with St. Louis' \$87,000,000 Bond Issue which will provide for general improvement of municipal properties—streets, viaducts, waterworks, sewers, buildings.

With all this work in hand and much more in prospect, labor conditions are excellent. Workmen are busy in practically all lines We hear practically nothing here of inflated values. Wage conditions are good. Money is flowing freely.

A steady, consistent growth which looks to permanent progress. And while St. Louis is growing *St. Louis' Largest Daily* is helping advertisers to grow daily proving its value to manufacturers who are making an active bid for this big volume of business.

The Globe-Democrat Is Helping to Write Familiar Trade Names Into Building Specifications

Through the influence of its advertising columns The Globe-Democrat is helping to write familiar trade names into specifications for materials and equipment. There is an open gate to the St. Louis market through the pages of The Globe-Democrat.

Owners, contractors, architects and executives of wholesale and retail outlets read it. The Globe-Democrat is St. Louis' only morning newspaper.

And there are 710 Building Contractors in St. Louis—7 Wholesale and 82 Retail Electrical Goods outlets—7 Wholesale and 274 Retail Hardware outlets—94 Lumber and 39 Millwork outlets, 118 under various other classifications In all, 1653 Building Material outlets in The 49th State. 1844 Hardware dealers.

The Service and Promotion Department and the Research Division of The Globe-Democrat will give important co-operation and supply valuable data to executives who are interested in The 49th State as a market for materials and equipment entering into building construction.

In St. Louis and throughout The 49th State, the natural St. Louis market, you will see evidences of the work which this great newspaper is doing to promote and nurture the present building activities.

The Globe-Democrat Dream Homes project of last year attracted the attention of thousands to the possibilities of home construction.

The Small Homes Department of The Globe-Democrat has been offering suggestions and counsel to prospective home owners for months. Many of the new homes have been inspired by this service.

More than any other St. Louis newspaper, The Globe-Democrat is whole-heartedly fostering home building . . . carrying on in its own columns an elaborate campaign of advertising to stimulate interest in home ownership.

The 1,000,000 dwellings in The 49th State, with frequent replacements and improvements needed, present a sizeable volume of business in addition to the enormous amount of "new work" being started each day. Let the Globe-Democrat help you to swing this business your way. It is read by more families in The 49th State than any other St. Louis newspaper.

GOVERNOR ASKS MEXICAN STATE TO SEIZE FOODS

BY JOHN CORNIN.

[Chicago Tribune Press Service.]

Mexico City, Oct. 12.—The struggle between the foreign merchants of Vera Cruz and the radical elements was intensified Saturday when the governor requested the state legislature to authorize the seizure of foodstuffs in the name of the state of Vera Cruz. The message said:

"The capitalists in the state of Vera Cruz use illegal armaments and treasonous measures by their private and social position, to oppose collective action by the workmen and the efforts of the state through laws to make effective conquests for the rights of the community over the antiquated and radical labor crowd, which for five years had given trouble to the foreign business. The chambers of commerce and business establishments are making plans to oppose Gov. Jara. Telegrams protesting against the expulsion of foreign merchants have been sent to President Calles."

BUILDING OF THE WHITE HOUSE

The White House was begun in 1793 and completed in 1799.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them with Cremuline, an emollient creosote that is pleasant to take. Cremuline is a new medical discovery with wonderful action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as the best remedy for persistent coughs and colds and other forms of throat troubles. Cremuline contains creosote, a healing element which sooths and heal the inflamed membranes and stop the growth of germs.

The governor's proposed law contains this clause:

"City, town and village councils and administrative bodies shall seize the articles mentioned when the merchants or warehouse owners refuse to sell to private persons or retail merchants, and to merchants not closing their establishments shall be entrusted the sale of articles seized."

Would Force Stores to Open.

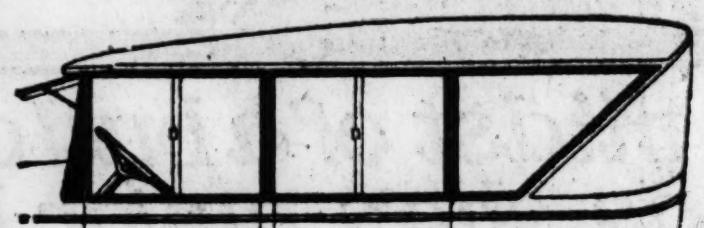

The bill provides for the immediate

Now they've discovered

Cloudy teeth are not naturally "off color"—simply dulled with a dingy film that hides them and invites decay and gum troubles

Now restore your teeth to dazzling whiteness, your gums to healthy firmness this remarkable new way that dental authorities urge... send coupon for 10-day test... note the amazing difference in your teeth

BELEIVING your teeth are naturally dull is a great mistake. Science has proved otherwise. Permitting your teeth to be other than clear and beautiful is an injustice to yourself.

Largely on dental advice, millions are now multiplying the beauty of their smiles. New methods of tooth cleaning and gum care have been found.

In a few days you can work wonders with your teeth. Can give them whiteness and clearness that amaze. But not with ordinary brushing. Just send the coupon and a 10day supply of the correct way will be sent.

*It's film that hides pretty teeth
and imperils gums*

Dental science now traces scores of tooth and gum troubles to a germ-laden film that forms on your teeth. Run your tongue across your teeth and you will feel it... a slippery, viscous coating.

That film absorbs discolorations from food, smoking, etc. And that is why your teeth look "off color" and dingy.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack and your teeth open to decay. Germs by the millions breed in it. And they, with tartar, are a chief cause of pyorrhea.

*It's film that hides pretty teeth
and imperils gums*

Ordinary dentifrices and cleaning won't. Fight film successfully. Feel for it now with your tongue. Note how your present cleansing method is failing in its duty.

Now new methods are being used. A dentifrice called Pepsodent—different in formula, action and effect from any other known.

Largely on dental advice the world has turned to this method.

It Removes that film, and Firms the Gums

It accomplishes two important things at once. Removes that film, then firms the gums.

A few days' use will prove its power beyond all doubt. Send the coupon. Clip it now before you forget.

It Removes that film, and Firms the Gums

JAPAN ASKS U.S. TO LET CHINA RULE ALL RADIO

Wants England, France
Also to Yield.

BY RODERICK MATHESON.

(Chicago Tribune Press Service.)

TOKIO, Oct. 12.—Fearing that increasing propaganda may drive the radio dispute possibly to the widest between the Americans and Japanese while the Chinese customs conference is in progress, the Japanese foreign office has called instructions to Ambassador Matsudaira to open conversations with Secretary of State Kellogg in an effort to reach an agreement.

This agreement is to be based upon the principle of Chinese control of radio communications in which the Americans, Japanese, British, and French interests pool everything, sacrificing certain portions in order to effect a reasonable compromise.

Also at Chinese Control.

The basic principle sought is neither Chinese nor American control, but Chinese, that is, Chinese national association while permitting some concessions to be made to satisfy something from their loans.

The Japanese minister at Peking on Saturday handed a memorandum of advice to China, stating that Japan will agree to Chinese management provided China assists in working out an otherwise unsatisfactory compromise. It is hoped that such a solution will be reached, otherwise than through further loans to China, although a moratorium on existing loans have been alternating during the conference.

It is expected here that should America agree in principle to Chinese control some form of a tentative agreement may be reached soon which will preclude the injection of the trouble-making radio question during the conference.

The instructions to Baron Matsudaira urge him to make it plain that the radio dispute is not serious so far as America and Japan are concerned. The technical details of the compromise may be worked out at leisure once a basic principle is reached, while for some time to come, pending the development of Chinese technicians, operation of the radio would be under the joint management of Americans, Japanese, and Chinese.

Between 5:30 and 6:20 today an ornate recital will be given from the Illinois Products exposition now in progress at the Furniture Mart building.

Advises from Moscow show that there is no hope of a conclusion or the Sakhalin Island concession agreement within the time limit, which expires on Oct. 15. The Japanese ambassador has been instructed to secure a month's extension of the time, although Tokyo is pessimistic of Russo-Japanese interests being reconciled.

Hold Funeral Services

for Miss Harriet L. Vincent

Harriet L. Vincent, 51, of 6055 Northcott avenue, a teacher in the public schools for more than twenty-five years, died at her home in Norwood Park Sunday morning. She taught home economics in the Winchell school until last May. She was a niece of Harriet N. Winchell, in whose honor the Tilden school was renamed the Winchell continuation school. Funeral services were held at Janesville, Wis.

ALD. EATON TO SPEAK AT SCHOOL

Al Charles Scribner Eaton of the 6th will speak this afternoon at Burke High School and Boys' Part of the Greater City Problems Affecting the South Side.

The Oriental Room presents fine and distinctive wares from Japan, Korea and China. Ninth Floor, North

CARSON PIRIE SCOTT & CO

The Galleries bring the work of representative painters in exhibitions of fine character. Ninth Floor, North

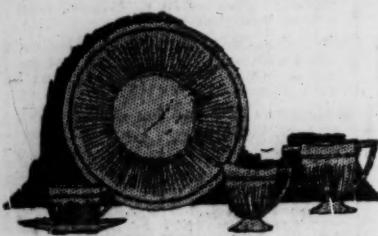

Blankets

Price is much or moderate only as it attaches to quality. Blankets here at each price are so excellent that moderate is exactly the term to be used, whether the blankets are \$7.50 or \$50 pair. A typical example is noted in

Blankets of very soft, fine wools, firmly woven — extra large size. Priced \$15 pair.

Seventh Floor, South.

Luncheon Sets of Glass, \$10 Shade from Rosy Pink to Opalescent Tints

New and altogether lovely is this effect of their coloring. So these are sets unusually attractive and decorative.

Nineteen pieces comprise the set—six goblets, six sherbet glasses, six luncheon plates and a sandwich tray.

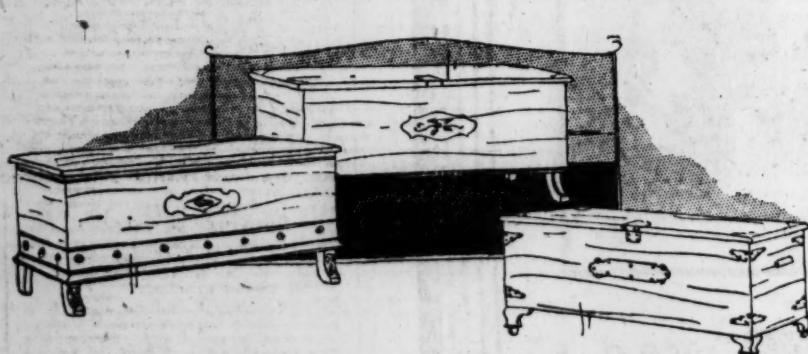

Specially Featured Are—

These Colorful Tea Sets of Glass at \$5 Set In Amber-Color, Blue and Green

Typical pieces of this set are sketched, showing the decorative ribbed effect. In the set are six plates, six cups and saucers, a cream pitcher and sugar bowl. Unusual at \$5 set.

Nut Bowls of Mirror Black Glass, with Nut Crackers Finished in Nickel Plate, \$1 Set.

Fifth Floor, North.

Special Sale of Cedar Chests Many Have Been Display Samples \$9 to \$45 Each

Price is in no way a measure of value in these chests. For all are thoroughly well made, fine of their kind. The variety of styles and sizes provides for every requirement; it would seem.

Some Are Entirely of Cedar

Others in Walnut Finish Lined in Cedar And Solid Walnut Lined in Cedar

There are plain chests, as well as those decorated in carvings. Lengths vary from 36 to 54 inches. Three are sketched. Prices vary with kind, \$9, \$13.50, \$16.50, \$18 to \$45.

Seventh Floor, South.

There's Real Advantage in Choosing Household Linens of Practical Sort At These Moderate Prices

With the addition of such linens the linen closet is ready to meet varied demands. They are the sort that give a splendid service and are attractive as well.

All-Linen Satin Damask Table Cloths \$10 to \$14.50 Each

Snowy white linens, in a variety of patterns. Table cloths in the 2 x 2-yard size, \$10; the 2 x 2½-yard size, \$12.50; the 2 x 3-yard size, \$14.50. Napkins in the 25-inch size are priced \$13.50 dozen; the 22-inch size, \$10.75 a dozen.

Hemstitched luncheon sets at \$5.75 are of fine Irish linen and are very convenient for informal use. A cloth, 45 x 45 inches, and six 13½-inch napkins comprise the set.

Bedspreads of Lace \$25 and \$27.50

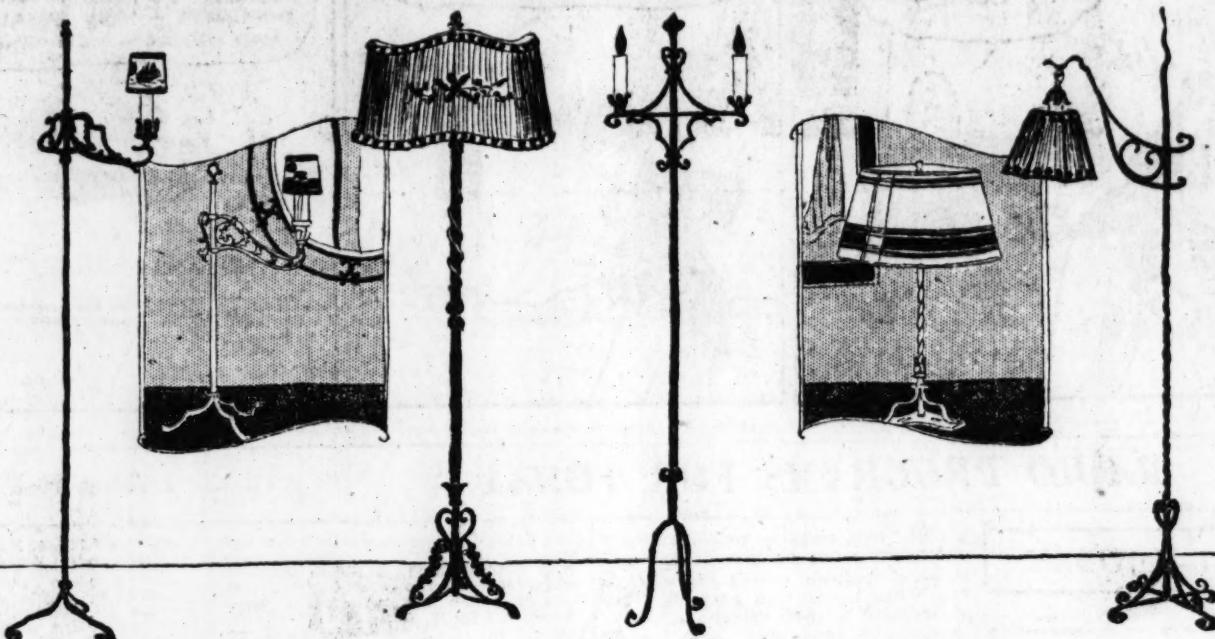

These are of Brittany-patterned lace. The single-bed size, \$25; double-bed, \$27.50.

Second Floor, North.

Linen Pillow Cases Are \$2.65 Pair

Hemstitching makes these all the more desirable. 22½ x 36 inches, \$2.65 pair.

Second Floor, North.

In a Sale—Very Low Priced—Sample Pieces in Lamp Bases of Iron Wrought by Hand Highly Individual in Design and Fine in Workmanship

Lamp bases of this sort are seldom the subject of a sale. Rather are they found in groups of interior furnishings, chosen to contribute an artistic note.

An interesting assortment is here, scarcely two bases alike, and each a splendid example of craftsmanship—even the little graceful flowers made by hand.

Floor and Bridge Lamp Bases Are \$6.50 to \$30 Each

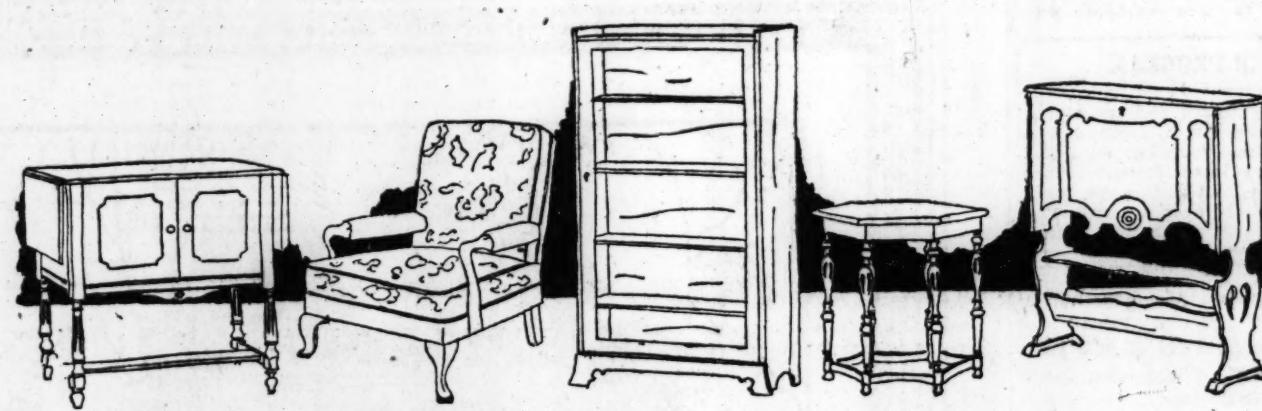

Table Lamp Bases Are Priced \$3.50 to \$15 Each

The finishes are almost as varied as the designs. Here one lamp is in polychrome effect, another has gold metal leaf application, and still another has an antique effect.

Also included in this selling are ferneries, tables of iron wrought by hand, and mirrors whose frames are of hand-wrought iron. So that many unusual pieces may be chosen.

Prices Vary According to the Article and Its Style.

Fifth Floor, North.

Excellent Values in Occasional Furniture Wall Desks Designed in the Italian Type, \$38.50

This desk and the several other pieces featured at this time are representative of the variety as well as the excellent values in small pieces. Their quality is of that superior sort which in every instance stresses the value as worth while.

Mahogany Tables

\$22.50

Graceful in design, as the sketch indicates. The top measures 30 x 30 inches. Made of mahogany. \$22.50.

Small Bookcases

\$22.50

In the mahogany finish, fitted with a glass door. The bookcase is 27 inches wide, 52 inches high. Sketched. \$22.50.

Coxwell Chairs

\$55

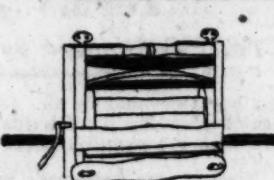

This type of chair, sketched, is not only comfortable but attractive in appearance. In varied coverings. \$55.

Radio Cabinets in the Mahogany Finish Have Drop Leaves Which, Extended, Provide a Table Space 48 Inches Wide. Sketched. \$22.50.

Sixth Floor, North.

Household Necessities Low Priced

These Clothes Hampers At \$3.75

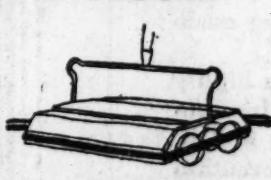

Clothes Wringers At \$7.95

These have 11 x 13½-inch rollers, adjustable drainboards and enclosed cogs. Sketched. \$7.95.

Well-made Brooms At 60c

These have the varnished handles. The brooms are four-sewn. Note the sketch. Special at 60c.

Carpet Sweepers At \$3.45

The cases are in the mahogany finish. Brushes are strong and durable. Sketches above. Priced \$3.45.

Clothes Baskets Priced \$1

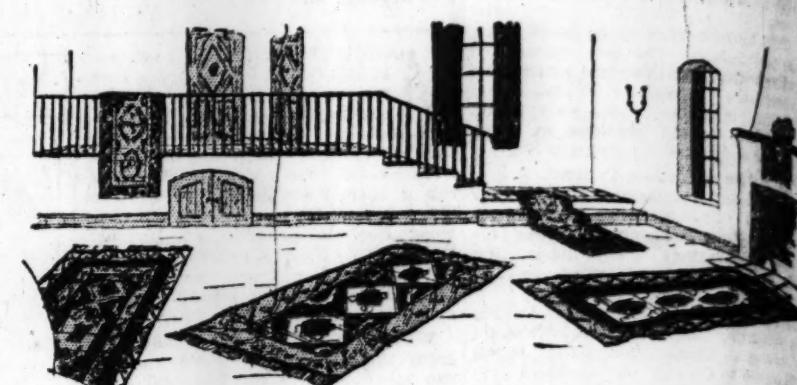

These baskets are ample in size and sturdily built of willow with braided tops. Sketched. Priced at \$1.

The Home Beautiful Service—

Now when the new apartment is to be furnished or the apartment already occupied redecorated, this service can be very helpful.

It not only assists in planning the decorating scheme from its beginning to its completion, but will aid in the choosing and placing of a single piece of furniture. This service is given without charge.

Sixth Floor, North.

The Smaller Oriental Rugs Whose Excellent Qualities Emphasize The Very Moderate Prices

In choosing these rugs one has the satisfaction of making a real saving without a sacrifice of those essentials in fineness of weave and beauty which make a rug desirable.

For at each price qualities are thoroughly good, design characteristic of the weave, and colors deep and rich.

A Featured Assortment of Mats Anatolians, \$4.50—Beloochistans, \$4.75 Anatolian Rugs, 3x5 ft., \$14.75

Each one of these rugs is an interesting specimen of its kind. Altogether these are among the most unusual groupings of small oriental rugs noted in some time.

Hamadan Rugs \$27.75

The typical designs of this weaves are at their best in this group of rugs. Each rug averages 2½ by 4 feet.

Mosoul Rugs \$37.50

These well-known, heavy weaves are at their best in this group of rugs. Each rug averages in size 3 by 5½ feet.

In an Interesting Collection—Dozar, Mosoul, Kazak and Lillahan Rugs, \$47.50

These rugs are very rich and fine in appearance. They are remarkably varied in design and so afford a wide choice, meeting many ideas as to color effect and pattern. Excellent values in this specially planned setting at \$47.50 each.

Seventh Floor, North.

Ruffled Grenadine Curtains, \$3.95 Wider to Drape in the French Manner

Soft and dainty are these curtains when draped as indicated in the sketch. They are very lovely window hangings for bedrooms or to fit the more informal decorative scheme.

Each Curtain Is Forty Inches Wide

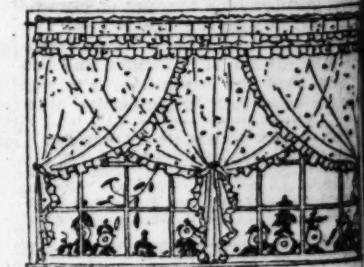

Ruffled tie-backs are included with each pair. The grenadine is in quaint dotted design. Two pairs of curtains are required for the effect presented in the sketch. \$3.95 pair.

Ruffled valances to match these curtains are \$1.10 each.

Lace Curtains from Scotland, Special at \$6.50 Pair

The full hems—2 inches wide—make these curtains especially rich-looking. In many all-over designs. \$6.50 pair.

Sixth Floor, South.

Large Wardrobe Trunks, \$57.50 Have Many Conveniences for Travel Comfort

That the needs of the traveler are most satisfactorily met in this newly located section is typified in the luggage featured here.

Splendid example of this are these trunks, which have very complete equipment, and yet the pricing is very moderate.

Twelve Hangers, Four Trays Which Lock Shoe Box, Dust Curtain

The trays of these trunks are reinforced with bindings. The linings of blue figured leatherette are another practical feature.

The sturdy construction of these trunks makes them dust and warp-proof. Note the sketch. \$57.50.

Women's Fitted Leather Suitcases, \$45

Good-looking, well-made. These are of tapir-grained cowhide, and have a removable tray which holds twelve fittings in shell-effect or amber-color. Sketched. Priced at \$45.

First Floor, East.

BERLENBACH WINS ON TECHNICAL K.O. IN NINTH ROUND

Sends King Solomon Down
Three Times.

New York, Oct. 12.—(AP)—Oliver was 15 pounds to a game and courageous for a man. Paul Berlenbach, world's light heavyweight champion, this afternoon made an auspicious start in his attempt to qualify for a fight with Jack Dempsey. Berlenbach scored a technical knockout over King Solomon of Panama in the 10th round of a ten round match at the New York National League baseball park.

Weighting only 172 pounds against 173 for the Central American heavyweight, Berlenbach battered Solomon into submission after chasing him around the ring with a blinding barrage of blows to body and head.

Flored Three Times.

Solomon kept his feet with difficulty until the eighth, when he was floored three times. After 31 seconds of the ninth round, Referee Jack O'Sullivan stepped between them and sent Solomon to his corner, ending the fight. Solomon's defeat was the second straight for the 40-year-old boxer, who previously had seen Babe Herman, of California, outstanding featherweight challenge, held to a draw by Joe Colmar of New York, a competitor unknown.

Colmar entered the ring on only a few hours' notice as a substitute for the retired featherweight champion, Johnny Dundee, who failed to appear for the weighing in at the offices of the New York boxing commission.

Horner Knocked Down.

Colmar appeared overweight at 134½ against 132 for Dundee, but proved he would make trouble soon by flooring the Californian by flooring the ring with a terrific left hook soon after the opening of the first round.

The third of three ten rounders of the show, conducted as a benefit for the National Sports Alliance, brought together a pair of fleet footed lightweights, Jack Bernstein of New York and Eddie Terrell of New York. Terrell won the judges decision. It was their second meeting.

Tremont Bout Postponed.

Cleveland, Oct. 12.—The ten round contest between Carl Tremont and Benny Gersbach, both middleweights, scheduled for tonight was postponed late today until Thursday night because of inclement weather.

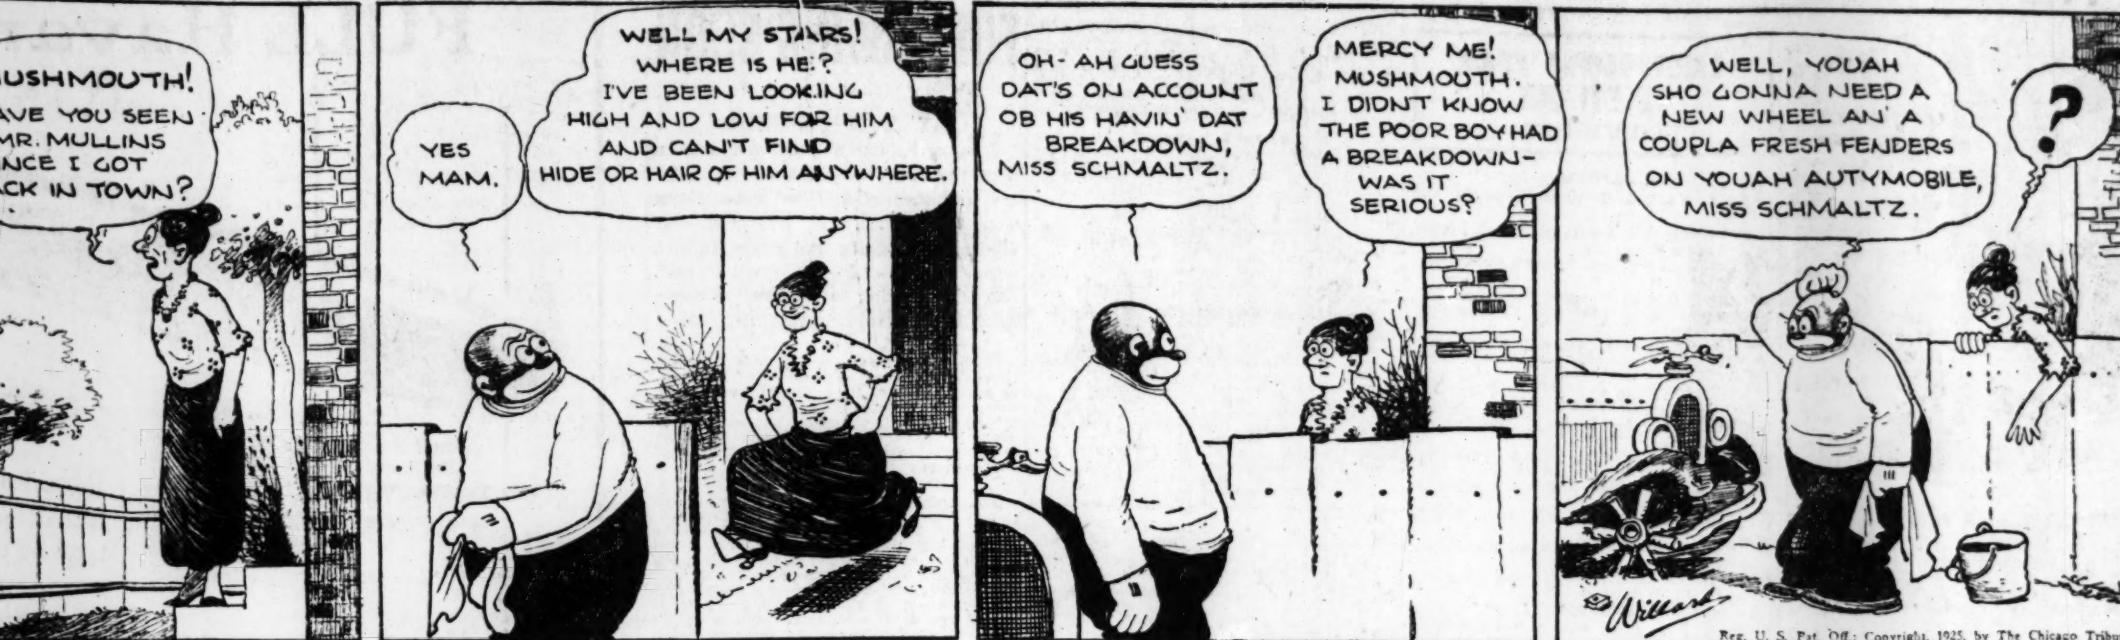

**TWO CANDIDATES
IN RACE TO HEAD
COUNTRY CLUB**

Having served three terms, during which time the Olympia Field Committee club built a \$1,000,000 clubhouse, Charles S. Smalley expressed a desire to retire as president.

The nominating committee, however, succeeded in getting President Smalley to change his mind, and has tendered all of the present officers for reelection at the annual meeting Nov. 8. An independent faction has placed C. H. Miller in nomination as a candidate for president, but has affirmed the choice of the nominating committee for the other officers. The latter include Albert M. Saxe, vice president; George A. Blair, secretary, and R. T. Forbes, treasurer.

Directors nominated include George E. Throckmorton, one year; L. F. Andrey, George A. Blair, Dr. A. F. Miller, J. J. Pelley, S. J. Wylie, Frank F. Fish, and Charles M. Smalley, three years.

Good Clothes That Cost Less

Glothercraft Clothes

F. E. SHAW WINS GRAND HANDICAP AT LINCOLN TRAPS

Three Tie for Second in Field of 100.

By FRANK RIDGWAY.

My desk has been covered during the last week or ten days with fall blossoms of shrubs and fruit trees sent in by readers of THE TRIBUNE as proof

of the fall colors and bloom

for the second time this year.

The collection now includes an assortment of flowers from apple, pear, and cherry

trees and lilac bushes.

The most unusual of the freaks which

came even from farmers on the prairie

start to bring out their reading glasses and

make close examinations was a branch of a pear tree bearing both the fruit and

blossoms from F. P. Brown's orchard at Cypress, Ill.

But the orchardists expected us to be

skeptical for each one of them sent in a

sample to prove that the blossoms were

indeed caused by the recent snow,

sheet, and frost.

Warren was the victor in the double

championship of the Chicago

trapshooting, held at the Lincoln

park traps Saturday afternoon. His

score of 90 out of a possible count of

100 targets at sixteen yards was top-

ped of a field of more than one hundred

participants from all sections of the

country.

The sharp crack of the fax gun,

like a shot, was the winning bell,

calls back east, wandering trout,

to the wasteland's lonely spell.

He roams in every country

in the summer's sunny clime,

but the autumn leads him northward

To be here for three days. ELL.

Football Retrospect.

Twenty-five winners, five losers, and one tie was the result of The Wake's forecast of Saturday's football results. Season to date: 70 winners, 10 losers, 2 ties.

Maroons, as the game was played, were

pretty lucky, though with a tie against

Michigan and a loss to Northwestern, Mis-

souri beat Indiana for the first time

since 1898, and that cost us one. That

was the only count over the now Big

Ten, although the Wolverines had set

an all-time record over 100

points of supremacy: 128 against Buf-

alo in 1901, 119 against Michigan Ag-
gies in 1902, and 130 against West Vir-

ginia in 1904.

Minnesota in 1903 scored 112 points

against Macalester, and in 1904, 146

against Grinnell. Chicago had 108

against Monmouth in 1903 and 123

against Great Lakes in 1919. Ohio

State downed Oberlin, 128 to 0, in 1916.

LYNETTE WINS IN STRAIGHT HEATS AT CIRCUIT MEET

Comes from Behind in Deciding Pace.

Atlanta, Ga., Oct. 12.—(AP)—The Grand Circuit meet opened here today as a feature of the southeastern fair, with a program of four events. When the meet closes Friday, the 1925 Grand Circuit season will end.

In the opening event today, the 2½ class pace, Lynette captured first honors in the three heats, coming from third place on the last circuit to lead Alice Ward, second, by a sulky's length.

Edwin Riddle, in the field of the race, won the three heats in the second race, the special pace event, holding the lead in each appearance without difficulty.

2:12 Pace is Best Race.

The third race, 2:12 class pace, brought forth the first real competition of the day when Miss Czar moseyed out Norman Grattan for first place in the third and deciding event. George W. was a bad third. Grey Worthy was declared winner of the fourth race, the special class race, by a sulky's length, over Tony Frisco, in two straight heats. The losing racer was the only Atlanta entry of the day, being owned by Walter Candler, well known sportsman.

COLGATE'S GRID CAPTAIN LEADS SCORING IN EAST

New York, Oct. 12.—(AP)—Eddie Tryon, Colgate's football captain, played only 22 minutes of the game against Cornell, but scored 10 points Saturday, but this was enough to score four touchdowns and kick six goals for points after touchdowns, for a total of 39 points for the day.

This exhibition of individual scoring gave the Maroon star a decisive lead over the field in the race for scoring honors on the intercollegiate gridiron. Tryon now has 19 touchdowns and 11 points after touchdown to his credit in three games for a total of 74 points.

Following is the list of the 15 leaders in the east:

	TD.	FG.	PAT.	TOT.
Lyon, Colgate	10	0	14	74

Major League Clubs Buy Waner and Rhyne of Seals

San Francisco, Oct. 12.—(AP)—Charles Graham, part owner of the San Francisco club in the Pacific Coast Baseball league, received a telegram today from Alfred Putman, secretary to the club, in Washington, that Paul Waner and Hal Rhyne, outfielder and shortstop, respectively, of the club, had been sold to big league outfits. The names of the purchasing clubs were not stated.

Wane, 30, of Okla., three years ago, and is the leading batman of the league. Rhyne joined the Seals in 1921, coming from Des Moines. His home is in San Jose, Cal.

LONDON MIRRORS WHOLE WORLD IN DANCING MANIA

LONDON.—London, they say, is dancing mad. If this is true, then the whole world is dancing mad; for the London of these after-war years, more than any other capital, is a mirror of the world.

To discover the truth of this, it is only necessary to visit one of London's mammoth dance palaces any night of the week. The idea will soon be dispelled that London exists by the endeavors of gentlemen from beyond Tweed competing more or less successfully with little men from beyond Jordan.

Nowhere else is there so great a profusion of types, racial, facial, vocational, sartorial, as in these "Valhallas" of the sociologist.

Here is the aboriginal Englishman, in the person of a gallant corporal of the Buffs, tripping his measure with a sturdy English lass, "the world for getting."

Oddy Sorted Couples.

Here are pasty-faced boys and pretty shingled girls whom youth makes so fair and passion for dancing so pale.

Here is a group of Cockney-tempered men, with a list of famous schools, famous colleges, a rising young surgeon among them. Here an octogenarian who for a sixpence is snatching a crowded minute of glorious life as he jogs around with a slim, shingled "partner." No one has brushed his dinner jacket. No loving hands have helped him with his tie.

Then there are Jews, many Jews, stragglers from the army that never came, scattered across London, on pleasure bent. They glide and sway, with perfect balance, on feet that twist this way and that. The Jew is a born dancer.

Indian in Latest Toga.

There is an Indian, a student from

Bloomsbury, most likely, his neat figure clad in Savile row's latest. Slowly he paces the promenade, that side of the great hall lined with chairs, where he may choose his partner, if she will have him. He is suave in asking, indifferent to rebuff.

A little Japanese, swinging past the band stand in perfect harmony with a tiny English lady, comes in collision with a dark-skinned half-caste and moves not a muscle.

Her smile gives a glimpse of flashing gold.

Even young America is there, compe-
tive with "tux" and horn-rimmed spectacles.

So the pageant passes, while above in the balcony a man in imitative evening dress, with the face of a poet, whisks to a girl with the face of an angel, perhaps whispers of the kings of the world, as they both look started.

Bush comes forward now with the statement that many of his customers who formerly brought black and various shades of brown to him to be trimmed are now appearing with Titan tresses. But they cannot dye the backs of their necks, Bush insists, and those said necks would have to be shaved every day to conceal the unreddened hair.

"They always have a self-conscious smile on their lips as they come in for the first time after having visited the dyers," says the master barber. "Some want to know if they've improved their looks; some apologize and want to know if there's any way they can take the dye out."

"Guess the beauty parlor girls are some salesmen in their rid of so much dye, but at least the secret origin of the large number of red headed mammas has been uncovered."

IN FOREIGN STOCK MARKETS.

LONDON, Oct. 12.—Bar silver 32d per ounce. Money, 2% per cent. Discount rates: Short bills, 34-625-16 per cent; three months' bills, 35-1663% per cent.

PARIS.—(AP)—Prices moved irregularly on the Bourse today. Three per cent rentes, 46 francs. Exchange on London, 105 francs 42 centimes. Five per cent loan, 66 francs 60 centimes. The dollar was quoted at 21 francs 77 centimes.

WANTED A Sales Manager

By large established company building Electrical Refrigerating Machines for household and business on large production program. This man must be able to meet people, organize sales forces, local and national; co-operate intelligently with a program of organization and sales through the printed word, establish quotas, make contracts, and keep salesmen under him keyed up and enthusiastic about their work. The right man will have a great success.

\$9,500,000

61 Broadway Building

NEW YORK CITY
BROADWAY-EXCHANGE CORPORATION

First Mortgage 5.50 Per Cent Sinking Fund Gold Loan
(Closed Mortgage)

Dated October 1, 1925

Principal and semi-annual interest (October 1 and April 1) payable at the office of the Trustees; coupon form in interchangeable denominations of \$1,000 and \$500; registrable as to principal. Redeemable, in part, at the option of the Corporation on any interest payment date on or preceding October 1, 1925, or 163 days thereafter, or as a whole at any time upon payment of principal and accrued interest, thereafter, to and including October 1, 1940, at 102 and accrued interest; thereafter, to and including April 1, 1950, at 101 and accrued interest. Interest payable without deduction of any Federal income tax not in excess of two per cent. Refund of the Pennsylvania, Connecticut, Kansas and California taxes not to exceed four mills, Maryland four and one-half mills tax, Kentucky and District of Columbia five mills taxes, Michigan five mills exemption tax, Virginia five and one-half mills tax, and Massachusetts income tax not to exceed six per cent to resident holders upon timely and proper application.

THE NEW YORK TRUST COMPANY, New York City, Trustee.

The following is summarized from a letter from Mr. E. C. Stuckless, president of the Corporation:

Location: The 61 Broadway Building, located in the heart of the financial section of New York City, occupies the entire northwest corner of the intersection of Broadway and Exchange Alley, extending one block in depth to Trinity Place. Within a short distance are located the buildings of The Equitable Trust Company of New York, the New York Trust Company, Bankers Trust Company, Standard Oil Company, New York Stock Exchange, United States Sub-Treasury, First National Bank, and also the Equitable Building and Trinity Buildings. The building is adequately served by convenient subway, elevated and surface railway transportation and has a direct underground connection with the Wall Street station of the Lexington Avenue line of the Interborough Company.

Building: The building is a 32-story office and banking building of granite, limestone, concrete, steel and brick fireproof construction and is carefully designed to afford maximum light and to take advantage of its exceptional location facing on three thoroughfares. It was constructed prior to the enactment of the present New York City zoning laws and it is estimated that a new building of the same height, erected in compliance with the present laws, would contain less than 75 per cent of the net rentable area of the present building. The building is equipped with 24 high-speed elevators and is modern in every respect. All electric light, heat and power is furnished from an independent plant within the building.

Security: This loan will be secured, in the opinion of counsel, by a closed first mortgage on the land and building owned in fee. The plot extends approximately 105.1 feet on Broadway, 202.2 feet on Exchange Alley, 110.9 feet on Trinity Place and 209.0 feet on the north line, comprising a total ground area of over 22,000 square feet. The land has been independently appraised by George R. Read and Co. at \$4,900,000; McKim, Mead and White have appraised the building at \$11,179,736 making a total appraised value of \$16,079,736. The appraisal of the building does not include the valuable vaults and improvements installed by The Chase National Bank which represent a substantial investment and which become the property of the building in 1934. Based on the above appraisals this loan represents less than a 59.1 per cent mortgage. Title and fire insurance will be carried payable to the trustee.

Earnings: The earnings of the building as furnished by certified public accountants, for the year ended August 31, 1925, were as follows:

Gross earnings	\$1,863,942
Operating expenses, maintenance, insurance and taxes (excluding Federal taxes)	584,906

Balance	\$1,279,036
Maximum annual interest charges on this loan	525,500

For the past three fiscal years ended August 31, 1925, net earnings have averaged over two times the maximum interest charges on this loan.

Occupancy: The Chase National Bank, Rockefeller Foundation, Vacuum Oil Company, Laura Spellman Metal Company and Columbia Gas and Electric Company are among the tenants of this building. The operation of a quarterly sinking fund, beginning April 1, 1926, through purchase in the open market or through retirement by lot at the then call price, will reduce this loan to less than \$3,000,000 at maturity, or an amount substantially less than the present value of the land alone.

Ownership: This property is to be acquired by the Broadway-Exchange Corporation, the entire common stock of which is owned by the Anahma Realty Corporation, of which Mr. August Heckscher is president. Among the other properties controlled by the Anahma Realty Corporation are: The Heckscher Building, Southwest Corner 57th Street and Fifth Avenue, and such prominent buildings in the Grand Central Zone, as the Canadian Pacific Building, Equitable Trust Building, Vanderbilt Concourse Building, No. 50 East 42nd Street Building; in the Financial district, Exchange Place Building at No. 43 Exchange Place.

This loan is offered when, as and if issued and received by us and subject to the approval of counsel, Messrs. Chapman, Cutler and Pease for the Bankers, and Messrs. Platt, Field and Taylor for the Corporation.

Subscription books will be opened October 13, 1925 at 9:00 A. M. Central Standard Time at the office of P. W. Chapman & Co., Inc., Syndicate Manager, 116 S. La Salle Street, Chicago, and closed at their discretion.

"RED HEADED" GIRLS BETRAYED BY HAIR ON NECK

TOPEKA.—If you think your red headed mamma is deceiving you, look at the back of her neck.

If she's not really a red headed mamma the back of her neck will show black or brown hair. That's the declaration of E. A. Bush, Topeka master barber, who has bobbed many a girlish head and shaved many a girlish neck since the passion for short hair started.

A little Japanese, swinging past the band stand in perfect harmony with a tiny English lady, comes in collision with a dark-skinned half-caste and moves not a muscle.

Her smile gives a glimpse of flashing gold.

Even young America is there, competitive with "tux" and horn-rimmed spectacles.

So the pageant passes, while above in the balcony a man in imitative evening dress, with the face of a poet, whisks to a girl with the face of an angel, perhaps whispers of the kings of the world, as they both look started.

Bush comes forward now with the statement that many of his customers who formerly brought black and various shades of brown to him to be trimmed are now appearing with Titan tresses. But they cannot dye the backs of their necks, Bush insists, and those said necks would have to be shaved every day to conceal the unreddened hair.

"They always have a self-conscious smile on their lips as they come in for the first time after having visited the dyers," says the master barber.

"Some want to know if they've improved their looks; some apologize and want to know if there's any way they can take the dye out."

"The Jolly Testator"

"Tisn't easy to say,

mid her varying vapors,

What scraps should be deemed

testamentary papers.

Every step that we take,

there arises fresh trouble:

Is the legacy lapsed?

Is it single or double?

No customer brings

so much grist to the mill,

As the wealthy old woman

who makes her own will."

*From "The Jolly Testator Who Makes His Own Will."
Lord Neaves (1800-1870)

Coupon Bonds and fully registered Bonds, interchangeable, in denominations of \$10,000, \$5,000, \$1,000 and \$500. Principal and semi-annual interest (March 1 and September 1) payable at The National Park Bank, New York City, or at The San Antonio Joint Stock Land Bank, San Antonio, Texas.

These Bonds are as completely tax-exempt as United States First Liberty Loan 3½% Bonds Legal Investments for all Fiduciary and Trust Funds under the jurisdiction of the Federal Government and acceptable at par as security for Postal Savings Funds

SUMMARY

From his letter, Mr. Wm. B. Lipe, President, summarizes as follows:

These bonds are direct obligations of The San Antonio Joint Stock Land Bank of San Antonio, Texas, which was chartered on September 15, 1919.

They are secured by deposit of first mortgages on improved farm lands having an appraised value of at least 200% of the mortgages, or by United States Bonds or Certificates of Indebtedness. Further protection is afforded by the Capital Stock, carrying double liability, which has received regular dividends at the rate of 8½% since January 1, 1923.

This Bank confines its operations largely to the Black and Grand Prairie sections of Texas and Oklahoma. Texas easily leads the nation in the value of crops produced, exceeding the next State by over 123%. The loaning territory includes approximately 1/12th of the total farm wealth of the United States and is recognized as one of the most desirable fields for Joint Stock Land Bank operation.

The San Antonio Joint Stock Land Bank has an unusually strong management, consisting of men who have had long and successful experience in banking and the farm mortgage business in the territory in which the bank operates. It is being operated in close connection with the Frost National Bank of San Antonio, one of the largest financial institutions in Texas.

We offer these bonds when, as, and if issued and received by us

RAILROADS AND BUS LINES EACH MAKES OUT CASE

BY HARPER LEACH.

Little if any light on the economics of motor and rail competition has been shed by the various state and federal proceedings relating to Chicago and suburban steam railroad fares, one of which was decided yesterday by the interstate commerce commission on the ground that certain suburban rates on the Northwestern discriminated against interstate traffic.

The subject is growing in interest every day but also becoming more complicated—and it is very likely that the problem will have been settled in practice, long before statisticians and economists have it completely.

No addendum on what the effect of rate reductions will be on railroad revenues. There is a point at which rate increases cease to yield additional revenues, even where there is no effective competition, as in the case of the Boston rapid transit lines some years ago.

Any railroad or traction man can make out a good case for the injustice of subsidizing bus or truck competition by highway construction, as to specific lines of rail and highway. It can be shown in case after case that the public is making such competition possible, and that railroad tax payments contribute to such a subsidy, directly or indirectly.

But the automobile industry comes right back with formidable figures demonstrating the huge tax burdens borne by automobile manufacturers and the great increases or railway freight traffic due to the demands of the automobile industry and the highway construction, which that industry has promoted. In addition to that direct contribution to railroad traffic, it can be shown in case after case where the development of suburbs or new rural settlements by the auto and highway have increased the volume of railway traffic.

It has been shown that a train seating 180 passengers can be operated cheaper than busses seating that number, but such trains are frequently run nearly empty, while the competing bus lines also fail to make money.

Railroad taxes have increased from 3.77 per cent of rail earnings to about 5.5 per cent since motor competition became noticeable. But in the same period the aggregate revenue of the roads advanced sharply. Increased volume of railroad business is shown where suburban areas have been developed, largely because of motor travel and new highways. Chicago suburban travel by rail seems to be increasing yearly. The Long Island railroad shows a vast gain both in passenger and freight, since the island was overrun by autos.

As to any given set of rail lines and highways, the question of the effect of the aggregate of the equities and properties involved may seem simple. But when the remoter factors are considered and the railroads, the automotive industry and the country as a whole are taken into view the simplicity disappears. There never was anything simple about railroad rates. History—not science—made our rate system.

WOMEN'S CRAZE FOR SILK BUILDS VAST INDUSTRY

NEW YORK.—The silk stocking epidemic has hit Fallen Arches, the last stronghold, and manufacturers of artificial silk—pioneers in a new world industry—have settled down to full time production to meet the insistent demand.

After a careful survey scientists attending the interstate symposium of the American Chemical society, 52 East 41st street, announced that feminine calls for glistening lingerie, stockings, and garments have resulted in the production of 100,000,000 pounds of artificial silk a year.

"The United States is producing 40 per cent of the world's output of 'rayon' or artificial silk," declared Dr. M. G. Luft of Cleveland. "The new industry is advancing by leaps and bounds."

France is producing six times as much artificial silk as it was two years ago.

The pioneers thought that by introducing artificial silk they were going to accomplish in the textile industry what Henry Ford did in the automobile trade. But now we are driving further ahead than they ever dreamt of.

While the popularity of artificial silk has reduced the production of cotton, he added, it will stabilize the price of cotton and establish reasonable profits for the cotton industry; but it will not force cotton growers out of business.

AMERICANS BIG HORSE BUYERS AT DEAUVILLE SALE

AMERICANS—Americans have been the most liberal purchasers of thoroughbred yearlings at the French sales this season, where the prices have reached record proportions, and they have in this country and in England.

Ralph Beaver Strasburger of Philadelphia set something of a record for liberality on the French turf when he gave 2,086,000 francs for sixteen yearlings at the recent Deauville sales. These horses, of course, will be raced in France next season.

Joseph E. Wicks, president of the Washington Racing association, secured seven head for a total of 40,000 francs, while Frank Hitchcock, a steward of the Jockey club, who however confines his racing activities to his continent, gave 158,000 francs for three.

Yearlings sired by Kircubbit by "aptivit" and out of A. H. Hack, three-year-old, brought the highest average, selling for a total of 55,000 francs. Durbar by Rabelais. Armenia by Meddler, bred by the late Herman B. Durfee, and winner of the Epsom Derby, is third on the list, his produce averaging 113,300. Sardanapale, Comrade, Issard 2d and Hollister are well up in the list. The latter is well known in this country, having raced here in the colors of A. E. Macomber. Four of his get averaged 57,975 francs.

COTTON MARKETS.

LIVERPOOL, Oct. 12.—(CP)—Cotton—So far, market has been quiet. American strictly good middling, 11.94¢; good middling, 11.66¢; strictly middling, 11.49¢; middling, 11.44¢; strictly low middling, 11.14¢; low middling, 10.88¢; strictly good, 10.48¢; good ordinary, 9.88¢. Sale, 7,000 bales, including 3,200 American. Bremen, 12,000 bales, including 7,000 American, 11.14¢; steady; October 11.07¢; December 11.91¢; January 13.08¢; March 11.24¢; May 11.19¢; July 11.14¢; September 11.07¢.

DRY GOODS AND GARMENT NEWS

[Copyright, 1925, Fairchild News Service.]
LONDON—As part of a movement to check the decline in Britain's trade and to remedy the unemployment situation, there has been formed here the Empire Industries association. The specific purpose of the organization is to construct and centralize the work of various trade associations which are endeavoring to secure extensions in export preference and to safeguard home industries.

NEW YORK.—The silk market here is quiet and prices unchanged. In Yachting, the market was steady and unchanged. Quotations were: Crank double extra, \$7.05 extra; double extra, \$6.05 extra; 65 cent No. 1 extra, \$6.80 extra; 6.00.

MELBOURNE.—Prices in the local wool market are up 3 per cent with strong competition from continental buyers. Japan is also buying freely. The tone of the market is firm and large orders have been placed.

PHILADELPHIA.—The market in yarns remains fairly steady in spite of the large government crop estimate. Prices have not been settled in practice, long before statisticians and economists have it completely.

No addendum on what the effect of rate reductions will be on railroad revenues. There is a point at which rate increases cease to yield additional revenues, even where there is no effective competition, as in the case of the Boston rapid transit lines some years ago.

Any railroad or traction man can make out a good case for the injustice of subsidizing bus or truck competition by highway construction, as to specific lines of rail and highway. RAILROAD NOTES

A total of 1,793,000 employees were reported by the class I railroads for July, as stated by the bureau of statistics of the interstate commerce commission. This was an increase from 1,573,731, or 0.8 per cent, in the previous year.

The total compensation paid in July, 1925, amounted to \$245,600,243, an increase of \$641,770, or 2.4 per cent, over the total compensation paid in July, 1924.

The class I railroads in the first half of this year carried more than 4 per cent more freight than in the corresponding period of 1924, according to figures published by the bureau of statistics of the interstate commerce commission. The largest gain is shown in manufactures and miscellaneous freight, which jumped 8.11 per cent over last year. The roads carried 6.34 per cent more freight of lumber in the first six months than in the corresponding period of last year.

Equivalent of Horse Power.

A horse power is equivalent to raising 33,000 pounds one foot a minute.

TURKS AT LAST TAKE HATS OFF; SMASH TRADITION

NEW YORK.—The silk market here is quiet and prices unchanged. In Yachting, the market was steady and unchanged. Quotations were: Crank double extra, \$7.05 extra; double extra, \$6.05 extra; 65 cent No. 1 extra, \$6.80 extra; 6.00.

A moderate hog supply following a two weeks' break of more than \$2,000 served as a tonic to the trade and drastic declines in better grades were checked. Choice weighty butchers indicated strength. Quality was only fair, however, and offerings of inferior and common grades proved excessive and lowered 10/15¢ further. Outside orders called for 8,000 hogs, the second largest shipments in two months. The small showing of better grades sold within a narrow price spread, a range of \$11.75@12.00 taking the bulk of selected weighing under 300 lbs. and \$14.00@292 lbs., averages reached the summer. Average price lowered 5¢ at \$11.50.

With the exception of a small showing of high priced specialties in the cattle division, market declined largely 25¢ under pressure of liberal supplies throughout the country. Kansas City alone received 43,000, including a big share of local supplies, were 25¢ lower, general quality poorer than usual. Cattle, of feeder flesh met a broad demand on a firm basis. In between classes slumped most. Butcher stock declined 15¢@25¢. Calves lowered 5¢. Choice 1,234 lb. steers topped at \$15.75, although only half a dozen sold at \$14.00 and above. Long yearlings, averaging 1,120 lbs., brought \$14.00.

Receipts, 1,000; 500 lbs. 1000 lbs.

Lamb Value Drop.

Two weeks' high lamb prices swelled sheep receipts to 32,000, the second largest of the year and slightly beyond trade requirements. A slump of mostly 25¢ was followed by a further 10¢, due to the stubborn resistance of buyers to the market.

Natives to city butchers reached \$15.65 and to packers, \$15.50. Choice 103 lbs. yearlings, \$11.25. Feeding lambs were topped at \$15.75, although only half a dozen sold at \$14.00 and above.

Receipts at Chicago for today are estimated at 13,000 cattle, 22,000 hogs and 20,000 lambs, including 7,630 cattle, 23,783 hogs and 15,484 sheep, the corresponding Tuesday a year ago.

RE
WEEKS RESI
DAVIS NAME
WAR SECRET

Brought to Fro
Mitchell Cas

BY ARTHUR SEARS HE
Washington, D. C., Oct.
13.—John Wingate Weeks,
loved public man in all his
days, resigned the office of secretary
of commerce today; said good-bye to the
cabinet, and the arm
chairs, and retired, 65 and all
the scene in which he had
been a familiar figure for twenty years.
Wise counselor of two
and pillar of his party, the kind
mannered and soft spoken
statesman, whose sagacity is known
one of the most famous
names, went into private life
satisfaction that had beheaded his last bit of ad
vice.

Davis Succeeds Weeks
President Coolidge had ap
pointed Mr. Weeks' successor Dwight
of Missouri, a young man with
a impressive record of achievement
and promising future, who, as
secretary of war for the last
has demonstrated his fitness
cabinet place.

It happens, however,
Weeks' recommendation of
and to be his successor, fell
into ears at the White House.
President Coolidge had been
young Mr. Davis performed
actions during the illness of Mr.
with complete, if calm, satisfaction.
The fact is, young Mr. Davis
"sold" himself to Mr. Coolidge
saying goes in our commerce
and the President had noted it
is a young man who will go
had mentally listed him to fill
cabinet vacancy.

Made by Mitchell Case

What specially commended
vis to the President was the
secretary's proposals for dealing
the crisis precipitated by Col.
Mitchell's sensational charges
most reasonable" inefficiency
war and navy departments
the Shenandoah disaster and
use of the Hawaiian airplane
Mr. Davis urged the Preside
for the Mitchell charges perha
the state of our air defense to
partisan civilian board for
investigation, leaving the que
Col. Mitchell's insubordination
dealt with by the war depart
the routine way.

He argued that the people
have more confidence in an
investigation of that nature than
inquiry by the war and navy
ments, which would be a case
departments investigating the

not fall in with the acting
of war's suggestion, at least not
President Coolidge had appre
proposal. Then Mr. Wilbur told
Davis in formally proposing
investigation by an outside body
Coolidge appointed the board ne
conducting its inquiry.

Mr. Davis gained further
office at the White House by
mention to the aircraft board
army's answer to Col. Mitchell
in a word, is that the air serv
has developed effectively to
been permitted by the limited
congressional appropriations.

It was not until a fortnight ago
Mr. Davis had any idea he might
choose to succeed Mr. Weeks.
resignation had been impend
time and it was not till a cabinet
made known to any one his
to promote the assistant sec
to first place in the war depa

Called by President
Mr. Davis was summoned an
short talk with the President when
Weeks was bidding his official
and the reporters farewell
room of the executive
the new secretary, the
greatest member of the cabinet
to his office in the war
to prepare to step to the
We reporters were on hand
him the limelight, but he
had to leave it.

Then Mr. Weeks' day
with a nod toward the
from which the bureau
was coming more and more from
the retiring secretary.

Taff to Give Oath
A telephone call, interrupting
Mr. Davis that Chief
had consented to administer
The new secretary declined
